WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 36. Every licensee of a long-term care home shall ensure that staff use safe transferring and positioning devices or techniques when assisting residents. O. Reg. 79/10, s. 36.

Findings/Faits saillants :

1. The licensee has failed to ensure that staff used safe positioning techniques when assisting a resident.

A resident's clinical record indicated that they were at a high risk of falls and they had various interventions in place to try and prevent falls.

As per the Critical Incident (CI) report and interviews with staff, a Personal Support Worker (PSW) provided care to the resident and the resident was left without their fall prevention interventions in place as they went to retrieve a piece of equipment. As a result, the resident fell and sustained an injury.

In an interview with the PSW, they acknowledged that the resident's fall prevention interventions were not in place at the time of the fall.

The resident was left in an unsafe position which resulted in a fall with injury.

Sources: CI report, internal investigation notes, interview with a PSW and other staff. [s. 36.]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

The resident was left in an unsafe position which resulted in a fall with injury.

Sources: CI report, internal investigation notes, interview with a PSW and other staff.

An order was made by taking the following factors into account:

Severity: A resident was left in an unsafe position which resulted in actual harm to the resident as they sustained an injury.

Scope: This was an isolated case as no other incidents of unsafe positioning were identified during this inspection.

Compliance History: One written notification (WN) and one compliance order (CO) were issued to the home related to the same section of the legislation in the past 36 months. (683)
