**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 49. Falls prevention and management**

**Specifically failed to comply with the following:**

**s. 49. (2) Every licensee of a long-term care home shall ensure that when a resident has fallen, the resident is assessed and that where the condition or circumstances of the resident require, a post-fall assessment is conducted using a clinically appropriate assessment instrument that is specifically designed for falls.**

**O. Reg. 79/10, s. 49 (2).**

**Findings/Faits saillants :**

1. The licensee has failed to ensure that when a resident has fallen, a post-fall assessment has been conducted using a clinically appropriate assessment instrument specifically designed for falls.

A review of the health record for resident #023, related to falls incidents on July 18, 2010, and August 11, 2010, revealed that post falls assessments were not completed using a clinically appropriate assessment instrument designed specifically for falls.

An interview with the DON confirmed that post falls huddle assessments were not completed as the clinically appropriate assessment instrument was not utilized in the home until the year 2012. [s. 49. (2)]
