**s. 3. (1) Every licensee of a long-term care home shall ensure that the following rights of residents are fully respected and promoted:**

**1. Every resident has the right to be treated with courtesy and respect and in a way that fully recognizes the resident's individuality and respects the resident's dignity. 2007, c. 8, s. 3 (1).**

1. The licensee has failed to ensure the resident was treated with courtesy and respect and in a way that fully recognizes their individuality and respects their dignity.

As per record reviews, the resident had received care from a staff member in the home. The staff member inappropriately communicated to the resident during their care.

An interview with the alleged direct care staff confirmed that a specific method of communication was used during the interaction with the resident. An interview with a Nurse Manager indicated that this staff member did not treat the resident with courtesy, respect, and dignity in the communication they had with the resident during their care.

Sources: Critical Incident Report, a resident's electronic health records, home's internal investigative records, and staff interview with direct care staff, and a Nurse Manager. [s. 3. (1) 1.]

2. The licensee has failed to ensure the resident was treated with courtesy and respect and in a way that fully recognizes their individuality and respects their dignity.

As per record reviews, the alleged direct care staff approached the resident for care without gaining the resident's consent. The resident then exhibited responsive behaviour and a second staff arrived to assist with finishing the care.

An interview with a Nurse Manager confirmed the identified direct care staff did not treat the resident with courtesy, respect, and dignity during the interaction.

Sources: Critical Incident Report, a resident's electronic health records, home's internal investigative records, and staff interview with direct care staff, and a Nurse Manager. [s. 3. (1) 1.]

**WN #3: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care**

**Specifically failed to comply with the following:**

**s. 6. (1) Every licensee of a long-term care home shall ensure that there is a written plan of care for each resident that sets out,**  
**(a) the planned care for the resident; 2007, c. 8, s. 6 (1).**  
**(b) the goals the care is intended to achieve; and 2007, c. 8, s. 6 (1).**  
**(c) clear directions to staff and others who provide direct care to the resident. 2007, c. 8, s. 6 (1).**

**s. 6. (4) The licensee shall ensure that the staff and others involved in the different aspects of care of the resident collaborate with each other,**  
**(a) in the assessment of the resident so that their assessments are integrated and are consistent with and complement each other; and 2007, c. 8, s. 6 (4).**  
**(b) in the development and implementation of the plan of care so that the different aspects of care are integrated and are consistent with and complement each other. 2007, c. 8, s. 6 (4).**

**s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).**

**Findings/Faits saillants :**

**Inspection Report under  
*the Long-Term Care  
Homes Act, 2007*****Rapport d'inspection en vertu  
de la Loi de 2007 sur les  
foyers de soins de longue  
durée**

1. The licensee has failed to ensure that resident #001, 016, and 017's plan of care set out clear directions to staff and others who provided direct care to the resident.

Resident #001 had experienced a medical incident during one of their meals and resulted in an adverse outcome. The resident had a history of demonstrating responsive behaviours during their meals and as a result, put them at further risk for adverse outcomes. The resident's care plan indicated an intervention to address the resident's risk through a specific type of modification. The home's RD indicated that the modification did not provide clear directions to the staff and in this incident, the staff did not properly make the correct modifications as the RD would have expected.

Resident #016 and #017's care plan indicated a similar type of modification, however, there was no specific direction to the staff in their care plan on how this modification should have been made.

Failing to specify modifications made to the resident's meals resulted in actual risk of harm to the residents.

Sources: Resident #001, 016, and 017's clinical records including progress notes, assessments, and care plan; interviews with an RD and other staff members; observations of resident #016 and 017. [s. 6. (1) (c)]

2. The licensee has failed to collaborate with the Skin Care Coordinator when the resident exhibited an altered skin integrity.

As per record reviews, the resident had developed a new skin condition. The home's policy titled, "Skin Care and Wound Prevention and Management" stated a referral to the Skin Care Coordinator was required to follow-up with the wound. The identified condition had worsened when it was re-examined few months later.

An interview with the Skin Care Coordinator confirmed that they were unaware of the resident's skin condition until months after the skin condition was first discovered and they indicated they should have been notified when the condition was first discovered. A Nurse Manager also acknowledged the delay in referring the resident to the Skin Care Coordinator and such delay had impacted the resident from receiving optimum care.

3. The licensee has failed to ensure that a care intervention specified in the plan of care was provided to the resident.

As per record reviews, the resident was assessed by a Behavioural Supports Ontario (BSO) Nurse and an intervention was implemented. Two identified direct care staff approached the resident and assisted with an activity of daily living.

An interview with a BSO Nurse and a Nurse Manager stated that the direct care staff was expected to follow the resident's plan of care at all times. A Nurse Manager further confirmed the intervention was not utilized during an interaction with the resident and as a result, this had further triggered the resident's responsive behaviour.

- (b) a resident exhibiting altered skin integrity, including skin breakdown, pressure ulcers, skin tears or wounds,**
    - (i) receives a skin assessment by a member of the registered nursing staff, using a clinically appropriate assessment instrument that is specifically designed for skin and wound assessment,**
    - (ii) receives immediate treatment and interventions to reduce or relieve pain, promote healing, and prevent infection, as required,**
    - (iii) is assessed by a registered dietitian who is a member of the staff of the home, and any changes made to the resident's plan of care relating to nutrition and hydration are implemented, and**

1. The licensee has failed to ensure that an identified skin condition for the resident was reassessed at least weekly by a member of the registered nursing staff.

A review of the home's policy titled, "Skin Care and Wound Prevention and Management" stated weekly wound care assessment is to be completed using an electronic tool.

As per record reviews, the resident had developed a skin condition but the skin condition was not reassessed on six occasions using the identified tool as per home's policy.

An interview with the Skin Care Coordinator and a Nurse Manager confirmed residents with skin condition were to be reassessed at least weekly by the registered nursing staff and further confirmed the resident's condition was not reassessed on six occasions.

Failure to complete weekly skin assessment had impacted staff in determining the status of the skin condition.
