WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 17. Communication and response system
Specifically failed to comply with the following subsections:

- s. 17. (1) Every licensee of a long-term care home shall ensure that the home is equipped with a resident-staff communication and response system that,
- (a) can be easily seen, accessed and used by residents, staff and visitors at all times;
 - (b) is on at all times;
 - (c) allows calls to be cancelled only at the point of activation;
 - (d) is available at each bed, toilet, bath and shower location used by residents;
 - (e) is available in every area accessible by residents;
 - (f) clearly indicates when activated where the signal is coming from; and
 - (g) in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. O. Reg. 79/10, s. 17 (1).

Findings/Faits saillants :

1. On October 18th, while verifying the operation of the home's resident-staff communication and response system, the inspector noted that the system is set up to allow calls for assistance to be cancelled at the console at the nurse station on both the 1st and 2nd floor units. The home's system uses sound to alert staff to a call for assistance. By lifting up the phone cradle at each console, the audible call for assistance is silenced. This action also causes the white dome light above the resident's bedroom door, which illuminates when a call for assistance is produced by pressing a button at the end of the call cord, to turn off. It is noted this action does not turn off a red dome light that has been illuminated, which alerts staff that a call for assistance has been produced by pulling a call cord out of a wall mounted console, however the audible call is silenced in this case as well. As a temporary measure, during the inspection, the home's Environmental Services Manager secured each phone cradle to their respective console with tape. The licensee has failed to comply with O. Reg. 79/10, s.17.(1)(c).

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".
