Plan of care**

Specifically failed to comply with the following:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

1. The licensee failed to ensure the care set out in the plan of care was provided to the resident as specified in the plan.

A) An order was served for this non-compliance on January 4, 2017, with a compliance date of March 17, 2017. The home was ordered to ensure care set out in the plan of care related to falls intervention strategies was provided to all residents; all direct care staff received related re-education; and develop and implement auditing and corrective action processes to ensure falls interventions were provided to applicable residents as per their plan of care.

B) During this inspection, three identified residents, who were identified as “High Risk” for falls, were randomly selected for review in relation to the order.

A review of the current written plan of care for one of the residents, identified them as high risk for falls related to a previous history of falls and poor judgment in attempting to self-transfer. One specified falls prevention intervention was indicated on the resident's written plan of care.

An observation in May 2017, revealed two personal support workers (PSWs) provided the resident assistance with a transfer. Falls prevention strategies were observed in the resident's room; however, one of the specified strategies had not been implemented as per their written plan of care. The resident could not be interviewed related to their medical condition.

In an interview in May 2017, an identified PSW and registered staff confirmed the specified falls prevention intervention had not been implemented as per the resident's written plan of care.

In an interview in May 2017, the DOC was notified that an identified PSW failed to ensure the written plan of care related to falls prevention strategies for an identified resident was followed, and imposed a risk of injury to the resident.

The home did not ensure the care set out in the written plan of care in relation to falls intervention strategies was provided as specified. [s. 6. (7)]
