Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 53. Responsive behaviours

Specifically failed to comply with the following:

- s. 53. (4) The licensee shall ensure that, for each resident demonstrating responsive behaviours,**
- (a) the behavioural triggers for the resident are identified, where possible; O. Reg. 79/10, s. 53 (4).**
 - (b) strategies are developed and implemented to respond to these behaviours, where possible; and O. Reg. 79/10, s. 53 (4).**
 - (c) actions are taken to respond to the needs of the resident, including assessments, reassessments and interventions and that the resident's responses to interventions are documented. O. Reg. 79/10, s. 53 (4).**

Findings/Faits saillants :

1. The licensee had not ensured the actions taken to respond to the needs of the resident, including assessments, reassessments and interventions and the resident's responses to interventions were documented.

a) Staff interviews confirmed a specific intervention was being used for a resident to alert staff to escalating responsive behaviours. This intervention was not documented in the plan of care. There was no direction regarding when this intervention should be used. There was no documentation regarding when this strategy started or whether it was effective.

b) A review of progress notes for a resident indicated another intervention had started in response to specific behaviours. There were no notes regarding when this intervention was no longer needed. It happened on two occasions that the resident required this intervention, however the documentation regarding when it started and ended was incomplete.

Registered staff confirmed these interventions were expected to be documented in the written plan of care. [s. 53. (4) (c)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure the actions taken to respond to the needs of the resident are documented, to be implemented voluntarily.
