Findings/Faits saillants :

1. A resident sustained a fall with confirmed injuries resulting from the fall.

Registered staff confirm that if a resident sustains an unwitnessed fall, the expectation would be that the Personal Support Workers would call an RN or PRN to assess the resident prior to moving them.

During an interview with personal support workers, they state that they have been taught to call immediately for a Registered Staff member to assess the resident who sustains an unwitnessed fall and to not move the resident until they have been assessed.

This information was also confirmed by the Director of Care.
