1. The licensee did not ensure that the care set out in the plan of care was provided to the resident as specified in the plan.

The plan of care for resident #001 directed staff to implement a specific intervention to prevent the resident from attempting to get out of the chair and falling. In October 2013, staff did not implement the intervention as per the plan and the resident fell out of the chair resulting in a serious injury. [s. 6. (7)]

2. The licensee did not ensure that the resident was reassessed and the plan of care reviewed and revised when the resident's care needs changed.

When interviewed, three of three PSW's stated that they had reported to registered staff on at least three occasions in October after the resident's fall, that resident #001 was grimacing during care. When interviewed, a registered staff member recalled the PSW reports but did not associate the pain with the fall. Registered staff did not assess or document the resident's pain until four days after the fall. The plan of care was not revised until seven days after the fall. The home's pain assessment tool, Pain Assessment Checklist for Seniors with limited ability to communicate (PACSLAC) was not used until nine days after the resident demonstrated pain. This information was confirmed by the DOC, registered staff, PSW's and the health record. [s. 6. (10) (b)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that the resident is reassessed and the plan of care reviewed and revised when (b) the resident's care needs change, to be implemented voluntarily.
