Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.) The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.	Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD. Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 53. Responsive behaviours

Specifically failed to comply with the following subsections:

s. 53. (4) The licensee shall ensure that, for each resident demonstrating responsive behaviours,
(a) the behavioural triggers for the resident are identified, where possible;
(b) strategies are developed and implemented to respond to these behaviours, where possible; and
(c) actions are taken to respond to the needs of the resident, including assessments, reassessments and interventions and that the resident's responses to interventions are documented. O. Reg. 79/10, s. 53 (4).

Findings/Faits saillants :

Progress notes for resident #01 indicate that:
- Resident #01 was found in resident #03's room on two occasions making physical contact with the resident. Resident #03 indicated by words and actions that this contact was not welcome.
Staff interviewed are not aware of any planned strategies or interventions to respond to these behaviours and they state that they put their own interventions in place in an attempt to keep resident #03 safe.
There is no evidence that behavioural triggers for resident #01 have been identified or that strategies have been developed and implemented to respond to these behaviours in order to protect the safety of resident #03.

2. Progress notes for resident #01 indicate that resident #02 frequently wanders into the resident #01's room. This behaviour was confirmed by staff. Progress notes for resident #01 indicate verbal aggression and confirm that the resident becomes very angry with resident #02's wandering. Staff have expressed, in a progress note dated September 22, 2012, the fear that resident #01 has the potential for "for physical aggression towards this resident".
Behavioural triggers for resident #01's angry outbursts are not identified and there are no strategies developed and implemented to respond to these behaviours in order to protect the safety of resident #02.

3. The plan of care for resident #02 identifies that the resident wanders and directs staff to "attempt to determine underlying causes of behaviour" and to "monitor behaviour and attempt to determine pattern, frequency, intensity" of behaviours. There is evidence that the resident's wandering behaviour causes resident #01 to become extremely angry causing staff to fear for the physical safety of resident #02. There is no evidence that the resident was assessed to determine pattern, frequency or intensity of behaviours or to determine underlying causes. There is no evidence that behavioural triggers were identified or that strategies and interventions were developed to respond to these behaviours and ensure the resident's safety.[s.53.(4)(a)(b)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

WN #2: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records Specifically failed to comply with the following subsections:

s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,
(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and
(b) is complied with. O. Reg. 79/10, s. 8 (1).

Findings/Faits saillants :

1. As required under LTHA, 2007, O.Reg.79/10, s.53(1)2.:
Every licensee of a long -term care home shall ensure that the following are developed to meet the needs of residents with responsive behaviours:
2. Written strategies, including techniques and interventions, to prevent, minimize or respond to the responsive behaviours.

The licensee policy "Responsive Behaviours", 09-05-01, dated September 2012 states that:
Each resident displaying responsive behaviours will have this behaviour observed and assessed. A resident focused care plan will be developed and maintained that includes:
- Triggers to the behaviour;
- Preventative measures to minimize the risk of the behaviour developing or escalating;
- Resident specific interventions to address behaviours; and,
- Strategies staff are to follow if the interventions are not effective

The home failed to comply with the above noted policy for resident #01 and resident #02 as evidenced by the plans of care not being developed and maintained to include:
- triggers to the behaviour
- preventative measures to minimize the risk of behaviours
- resident specific interventions to address behaviours
- strategies for staff to follow if interventions are not effective. [s.8.(1)(b)]
