1. The licensee failed to comply with LTCHA 2007, S.O. 2007, c.8, s.6(1)(b), in that the written plan of care, for an identified resident, for bowel management does not include the goals the care is intended to achieve.

For the month of December 2012, the physician orders for an identified resident included the provision of a laxative.

The bowel records for December 2012, for this identified resident indicated four instances of 3 days or more with no bowel movement. For those instances specified, with the exception of the prescribed laxative, no further action by staff could be identified.

Although the resident is prescribed a laxative for constipation there are no goals related to the prescribed treatment. [s. 6. (1) (b)]

- (c) there is, at least quarterly, a documented reassessment of each resident's drug regime. O. Reg. 79/10, s. 134.

1. The licensee failed to comply with O.Reg 79/10, s. 134 (a), in that the effectiveness of the administration of pain medication to an identified resident was not monitored or documented.

The resident's health care record indicates that the resident expresses pain and for staff to administer pain medication as ordered and monitor effectiveness.

The effectiveness of three December 2012 administrations of pain medication were not documented and staff interviews could not confirm if the medication was effective for the resident's pain. [s. 134. (a)]
