**Findings/Faits saillants :**

1. A concern was identified related to a resident's right to be treated with courtesy and respect in a manner that respects the resident's dignity.

At approximately 11:50AM a resident indicated that she is always wet. I asked if she needed to go to the bathroom and she indicated "not now".

At 1:45PM, I observed that same resident sitting in her room in her wheelchair, and the sling/pad underneath her was wet to touch, yellowed and stained.

Staff confirmed that she is probably wet and they have not been able to change her as she has no bed at the present time. (Note-the home was in the process that afternoon of replacing resident beds with new high low beds.)

The Director of Care and Administrator indicate that a plan should have been developed to ensure the resident was changed in a timely manner consistent with the resident's needs.

***Additional Required Actions:***

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that residents are treated with courtesy and respect in a way that fully respects the resident's dignity, to be implemented voluntarily.***

**Findings/Faits saillants :**

1. Concerns were identified during the inspection related to staff participation in the home's infection prevention and control program.

The following was observed during the inspection:

Bedpans, a urinary catheter bag/tubing and a urine collection hat were found stored inappropriately.

A soiled commode and raised toilet seat were found in resident bathrooms.

I observed a resident sitting on a wet, yellow stained sling and pad in a wheelchair.

A review of a resident's progress notes revealed that a soiled bed pan had been left on the floor of a resident's room for more than 1 hour.

Three staff confirmed that bedpans are to be stored in containers located underneath the bathroom counter.
