Findings/Faits sayants :

1. On August 11, 2011, at 15:30, at the Nursing Home 2 nursing station, the procedures related to the preventative maintenance program for bed alarms were requested from the Rehabilitation Coordinator. There is no evidence to support that there are procedures in place to ensure that all bed alarms are kept in good repair.

On August 11, 2011, at 15:40 a staff interview was held with the Rehabilitation Coordinator and the Director of Care, at the Nursing Home 2 nursing station, to discuss the preventative maintenance program related to bed alarms. The Rehabilitation Coordinator stated that she checks the bed alarms monthly. However, they both acknowledged that there are no written procedures developed or documented to ensure that all bed alarms are kept in good repair.
