**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 33. Bathing
Specifically failed to comply with the following:**

s. 33. (1) Every licensee of a long-term care home shall ensure that each resident of the home is bathed, at a minimum, twice a week by the method of his or her choice and more frequently as determined by the resident's hygiene requirements, unless contraindicated by a medical condition. O. Reg. 79/10, s. 33 (1).

Findings/Faits saillants :

**Inspection Report under
the Long-Term Care
Homes Act, 2007****Rapport d'inspection en vertu de
la Loi de 2007 sur les foyers de
soins de longue durée**

1. The licensee has failed to ensure that residents #003 and #004 were bathed at a minimum of twice a week by a method of their choice.

A complaint was submitted to the Ministry of Long-Term Care that stated residents were not being bathed at a minimum of twice a week by a method of their choice.

- A) Resident #003 was to receive a tub bath twice per week.

Over a 30 day review period, resident #003 did not receive three out of nine scheduled baths (33%). The resident said they usually received only one bath per week but preferred two.

- B) Resident #004 was to receive a tub bath twice per week.

Over a 30 day review period, resident #004 did not receive one out of nine scheduled baths (11%). Of the baths they did receive, two of them were bed baths, which was not their preference.

The Director of Care said that the residents likely missed their scheduled baths due to short staffing. They said that when this occurred, the residents missed baths were not always made up.

Not ensuring that residents #003 and #004 were bathed twice a week by a method of their choice could result in health and hygiene concerns.

Sources: Interviews with residents #003, #004, PSW #102, DOC #101, and others, record review of resident #003, #004 plan of care tasks related to bathing and care plan. [s. 33. (1)]

O.Reg 79/10, s. 33. (1) Every licensee of a long-term care home shall ensure that each resident of the home is bathed, at a minimum, twice a week by the method of his or her choice and more frequently as determined by the resident's hygiene requirements, unless contraindicated by a medical condition. O. Reg. 79/10, s. 33 (1).

Order / Ordre :

The licensee must be compliant with s. 33 (1) of O. Reg 79/10.

Specifically, the licensee must:

A) Ensure that residents #003 and #004 are bathed, at a minimum twice a week by the method of their choice and more frequently if determined by their hygiene requirements, unless contraindicated by a medical condition.

B) Ensure that there is a documented process in place to track residents' baths/showers. The process must include documentation of any missed baths/showers, when and how those baths/showers will be made up; and follow up to ensure that bathing, by the method of the resident's choice, was provided.

Grounds / Motifs :

1. 1. The licensee has failed to ensure that residents #003 and #004 were bathed at a minimum of twice a week by a method of their choice.

A complaint was submitted to the Ministry of Long-Term Care that stated residents were not being bathed at a minimum of twice a week by a method of their choice.

per week but preferred two.

B) Resident #004 was to receive a tub bath twice per week.

Over a 30 day review period, resident #004 did not receive one out of nine scheduled baths (11%). Of the baths they did receive, two of them were bed baths, which was not their preference.

The Director of Care said that the residents likely missed their scheduled baths due to short staffing. They said that when this occurred, the residents missed baths were not always made up.

Not ensuring that residents #003 and #004 were bathed twice a week by a method of their choice could result in health and hygiene concerns.

Sources: Interviews with residents #003, #004, PSW #102, DOC #101, and others, record review of resident #003, #004 plan of care tasks related to bathing and care plan.

An order was made by taking the following factors into account:

Severity: There was minimal risk of harm when residents #003 and #004 were not bathed at a minimum of twice a week by a method of their choice.

Scope: The scope of this incident was a pattern because two out of the three residents reviewed during this inspection were not bathed at a minimum of twice a week by a method of their choice.
