**Findings/Faits saillants :**

1. The licensee failed to ensure that the resident's right to have his or her participation in decision making was respected.

Clinical record for an identified resident was reviewed and revealed that resident was at nutritional risk.

Review of clinical record confirmed that the resident requested a specific meal time intervention and although available was not provided by the home.

Clinical record review indicated that the resident was upset over not receiving this intervention.

In a telephone interview the Administrator acknowledged that staff did not provide the intervention as requested.
