WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 16. Every licensee of a long-term care home shall ensure that every window in the home that opens to the outdoors and is accessible to residents has a screen and cannot be opened more than 15 centimetres. O. Reg. 79/10, s. 16; O. Reg. 363/11, s. 3.

Findings/Faits saillants :

1. The licensee has failed to ensure that every window in the home that opened to the outdoors and was accessible to residents had a screen and could not be opened more than 15 centimetres.

Observations during inspection with maintenance worker #102 showed windows in multiple residents' rooms and in some common areas that in a certain way they opened to the outside more than 15 centimetres. A certain number of windows had no screens.

The Administrator said in an interview that it was the home's expectations that every window in the home that opened to the outdoors and was accessible to residents had a screen and could not be opened more than 15 centimetres. The Administrator said that work will be initiated on the windows immediately.

During this inspection, this non-compliance was found to have a minimal risk for the residents, it was found in several locations in the home and had the possibility to impact more than the fewest number of residents. The home had no previous non-compliance in this area. [s. 16.]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

WN #2: The Licensee has failed to comply with O.Reg 79/10, s. 131. Administration of drugs

s. 131. (2) The licensee shall ensure that drugs are administered to residents in accordance with the directions for use specified by the prescriber. O. Reg. 79/10, s. 131 (2).

Findings/Faits saillants :

1. The licensee has failed to ensure that drugs are administered to residents in accordance with the directions for use specified by the prescriber.

The home submitted on a certain date a Critical Incident System report related to a medication incident and adverse drug reaction.

A clinical record review showed that the physician ordered specific medications to be initiated on a certain date. The order was not initiated on the specific date which result in a medication incident and adverse drug reaction.

In an interview the DOC said that the specific physician's order was not started as directed by the physician.

The DOC said that the medications were not administered to the resident in accordance with the direction for use specified by the prescriber. [s. 131. (2)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that drugs were administered to residents in accordance with the directions for use specified by the prescriber, to be implemented voluntarily.
