WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records

Specifically failed to comply with the following:

s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,
(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and O. Reg. 79/10, s. 8 (1).
(b) is complied with. O. Reg. 79/10, s. 8 (1).

Findings/Faits saillants :

1. The licensee did not ensure that any plan, policy, protocol, procedure, strategy or system was complied with.

A review of the home's policy, Falls Prevention and Management Program (11-1.11 and dated January 2011), indicated that when a resident has fallen, Registered Nursing Staff are to:

- Complete the head to assessment
- Document in the progress notes: who was notified of the falls (e.g., physician, POA/SDM), probable cause of the fall, resident outcomes and interventions taken to prevent further falls or related injury

A review of resident #300's clinical record as well as the critical incident submitted by the home, indicated that on an identified date in December 2013, the resident sustained a fall with injury. A review of the resident's clinical record including their progress notes indicated that a head to assessment had not been completed following their fall and the probable cause of the fall and interventions taken to prevent further falls or related injury, had not been documented in their progress notes. An interview with the DON confirmed that the home's policy had not been complied with. [s. 8. (1) (b)]
