Pursuant to / Aux termes de :

LTCHA, 2007 S.O. 2007, c.8, s. 6. (10) The licensee shall ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time when,
(a) a goal in the plan is met;
(b) the resident's care needs change or care set out in the plan is no longer necessary; or
(c) care set out in the plan has not been effective. 2007, c. 8, s. 6 (10).

Order / Ordre :

The licensee must prepare, submit and implement a plan to ensure that residents are reassessed and the plan of care reviewed and revised when the resident's care needs change. This plan must specifically, but not inclusively, address:
a) the system in place for assessing and revising the plan of care in a timely manner for residents returning from hospital
b) how administration will ensure this plan is being carried out.

The plan is to be submitted to inspector Elisa Wilson by email at elisa.wilson@ontario.ca by March 30, 2012.

Grounds / Motifs :

1. The licensee did not ensure that residents were reassessed and their plans of care reviewed and revised at any time when the residents' care needs changed [LTCHA, 2007 S.O. 2007, c.8, s.6(10)(b)].

The licensee has failed to comply with order #001 from Inspection #2011_060127_0031 served on October 31, 2011.

a) A resident returned from hospital. The progress notes completed by nursing staff at the home indicated that the resident was admitted to the hospital with a specific diagnosis. When the resident returned from hospital the plan of care was not updated to include the diagnosis from the hospital and there were no interventions identified to monitor and address this potential problem.

b) Another resident returned from hospital. During the hospital stay, the resident had a procedure that required a specific therapy to be initiated. The document that the home refers to as the care plan was not updated to reflect the resident's condition upon return. No care plan was put in place to address the use of this new therapy and there were no interventions put in place to manage the associated risks. (167)
