WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 36. Every licensee of a long-term care home shall ensure that staff use safe transferring and positioning devices or techniques when assisting residents. O. Reg. 79/10, s. 36.

Findings/Faits saillants :

1. The licensee has failed to ensure that staff use safe transferring techniques when assisting residents.

Resident #2's plan of care indicates that he\she requires the assistance of two staff to transfer him\her. Resident #2 has a transfer logo above his\her bed indicating that two staff are to assist him\her to transfer from one position to another.

On a specified date a Personal Support Worker (PSW) S100 attempted to transfer Resident #2 without the assistance of another staff. During the transfer the resident was not able to sustain his\her own weight, at which time S100 assisted the resident to be lowered to the floor. A Registered Practical Nurse S101 assessed the resident following the incident. S101 was interviewed by the inspector and reported that as a result of the transfer and being lowered to the floor by S100 that the resident had sustained a minor injury that did not require medical interventions. [s. 36.]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that all staff use safe transfer techniques when assisting residents, to be implemented voluntarily.
