Findings/Faits saillants :

1. The licensee did not ensure that the following rights of residents were fully respected and promoted: the right to be protected from abuse.

a) On an identified date in 2014, resident #001 struck resident #002 with an object, while the resident was asleep in bed. Resident #002 sustained injury and experienced pain to the area and expressed fear over the incident. Resident #001 had known responsive behaviours prior to the incident. [s. 3. (1) 2.]

a) According to a progress note recorded on an identified date in 2014, resident #001 expressed the desire to be sexually active and demonstrated specific responses behaviours which required frequent monitoring. The Resident Assessment Protocol (RAP) completed on a specific date in 2014, indicated the resident had responsive behaviours which required monitoring. Progress notes reviewed over a five month period in 2014, indicated the resident was wandering in and out of other residents' rooms and was not always easily redirected; was becoming increasingly dizzy and unsteady, had sustained a fall with injury and required a crash mat next to the bed. The written plan of care did not identify the resident's desire to be sexually active, the need for frequent monitoring, the risks associated with the responsive behaviours, nor the need for a crash mat next to the bed to reduce injury of falls.
