The purpose of this inspection was to conduct a Critical Incident System inspection.

This inspection was conducted on the following date(s): February 9 and 10, 2017

This inspection included Critical Incident Inspection (CIS) log#: 013676-16 related to resident injury during transport; and was completed concurrently with follow up inspection #: 2017_570528_0005.

During the course of the inspection, the inspector(s) spoke with the Administrator, the Director of Care, the Staff Educator, the Programs Manager, registered nurses (RN), registered practical nurses (RPN), personal support workers (PSW), activity staff, and residents and families.

During the course of the inspection, the inspector also observed the provision of care and services, reviewed policies and procedures, clinical health records, and education records.

**The following Inspection Protocols were used during this inspection:
Personal Support Services**

During the course of this inspection, Non-Compliances were issued.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 36. Every licensee of a long-term care home shall ensure that staff use safe transferring and positioning devices or techniques when assisting residents. O. Reg. 79/10, s. 36.

Findings/Faits saillants :

1. The licensee failed to ensure that staff used safe transferring and positioning devices or techniques when assisting residents.

In April 2016, while in an activity, resident #010 became restless. Activity Aide #109 transported the resident out of the activity to their home area. While transporting the resident, the resident leaned forward, fell out of the chair and sustained an injury. Review of the plan of care, CIS report and interview with Activity Aide #109 confirmed that no safety measures were taken to ensure that the resident was in a safe position for transporting. Activity Aide #109 confirmed that they did not brace the resident for the transport by holding onto the resident until the resident began to lean forward, at which time, it was too late and they could not stop the resident. Resident #010 was not in a safe position for transporting and therefore the resident fell out of the wheelchair, causing injury. Since the incident, staff have been trained on safe positioning for transporting residents. [s. 36.]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that staff use safe transferring and positioning devices or techniques when assisting residents, to be implemented voluntarily.
