1. The licensee failed to ensure that the staff and others involved in the different aspects of care of the resident collaborate with each other in the development and implementation of the plan of care so that the different aspects of care are integrated and are consistent with and complement each other.

Health care record review and staff interviews indicate that an allegation of sexual abuse toward resident #2 from a visitor was reported by a staff on an identified date. The visitor was informed by the licensee about his/her visiting restriction. The assistant director of care interview revealed that a notice was left in the unit to inform the staff about the identified visitor's restriction. Registered staff interview confirmed that there was no notice left in the unit to inform the staff about the visitor's restriction. Health care record review and staff interviews confirmed that the resident's plan of care does not contain the information about the visitor's restriction [s. 6. (4) (b)]

Additional Required Actions:

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)

achieving compliance to ensure that the staff and others involved in the
different aspects of care of the resident collaborate with each other in the
