**WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 5.
Every licensee of a long-term care home shall ensure that the home is a safe and
secure environment for its residents. 2007, c. 8, s. 5.**

Findings/Faits saillants :

1. The License failed to ensure that the home was a safe and secure environment for its residents when the following occurred:

The home is currently under renovations and there was a planned power outage which deactivated the home's magnetic door locks.

Record review of the home's Loss of Electrical Power policy EMR-III-155, June 2007 revealed there was no procedure for how the exit doors will be kept safe and secured when the magnetic locks no longer function in a power outage.

In an interview the Environmental Services Manager confirmed the doors had not been checked to ensure see that all safe guards were in place before the power was turned off.

In an interview the Administrator confirmed her expectation that the home is a safe and secure environment for its residents when power outages occur. [s. 5.]

Additional Required Actions:

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)
the licensee is hereby requested to prepare a written plan of correction for
achieving compliance ensuring that the home is a safe and secure environment for
its residents when a power outage occurs, to be implemented voluntarily.***
