WRITTEN NOTIFICATION: Plan of care

NC #001 Written Notification pursuant to FLTCA, 2021, s. 154 (1) 1.

Non-compliance with: FLTCA, 2021, s. 6 (4) (a)

Plan of care

s. 6 (4) The licensee shall ensure that the staff and others involved in the different aspects of care of the resident collaborate with each other,

(a) in the assessment of the resident so that their assessments are integrated and are consistent with and complement each other; and

The licensee has failed to ensure that the Personal Support Worker (PSW) collaborated with the registered staff in their assessment of a resident's responsive behaviours towards another resident.

Rationale and Summary

Two residents had an altercation in the home on a specified date.

The PSW provided support to one of the residents for management of their responsive behaviours on that day. The PSW witnessed the altercation between the two residents and intervened as indicated in that resident's plan of care but failed to report this incident to registered staff.

The home's responsive behaviour management policy states that PSWs are to monitor and report effectiveness of interventions. The Associate Director of Care (ADOC) verified that PSWs are expected to collaborate and communicate their assessment of resident's responsive behaviours to registered staff during their shift.

Failure to ensure the PSW collaborated with registered staff regarding the resident's responsive behaviours towards another resident delayed the home's actions to implement potential interventions to address the resident's responsive behaviours.

WRITTEN NOTIFICATION: Hand Hygiene

NC #002 Written Notification pursuant to FLTCA, 2021, s. 154 (1) 1.

Non-compliance with: O. Reg. 246/22, s. 102 (2) (b)

Infection prevention and control program

s. 102 (2) The licensee shall implement,

(b) any standard or protocol issued by the Director with respect to infection prevention and control. O. Reg. 246/22, s. 102 (2).

The licensee has failed to ensure that any standard or protocol issued by the Director with respect to infection prevention and control (IPAC) was implemented.

Section 9.1 of the IPAC standard states "the licensee shall ensure that Routine Practices and Additional Precautions are followed in the IPAC program. At a minimum, Routine Practices shall include hand hygiene, including, but not limited to, the four moments of hand hygiene (before initial resident/resident environment contact; before any aseptic procedure; after body fluid exposure risk, and after resident/resident environment contact)".

Specifically, two PSWs did not complete hand hygiene before and after resident contact.

Rationale and Summary

A PSW exited a resident room wearing gloves. They did not remove their gloves or perform hand hygiene before exiting the resident room. Another PSW entered and exited multiple resident rooms without performing hand hygiene.

IPAC Lead confirmed that the two PSWs did not follow appropriate hand hygiene practices.

Failure to complete hand hygiene before and after contact with a resident environment places residents at risk of exposure to infectious agents.

COMPLIANCE ORDER CO #001 Emergency plans

NC #003 Compliance Order pursuant to FLTCA, 2021, s. 154 (1) 2.

Non-compliance with: O. Reg. 246/22, s. 268 (4) 1. ii.

Emergency plans

s. 268 (4) The licensee shall ensure that the emergency plans provide for the following:

1. Dealing with emergencies, including, without being limited to,
- ii. fires,

The inspector is ordering the licensee to comply with a Compliance Order [FLTCA, 2021, s. 155 (1) (a)]:

The licensee shall:

- 1) Provide training to all staff who worked on the specific shift and floor during the date of the fire incident, on the home's emergency plan, specifically related to code red and code green.
- 2) Maintain a written record of the training including the content of the education, the date the training took place, the staff member(s) who received the education, and the staff member(s) who provided the education.
- 3) Conduct at least one silent code red and code green fire drill on the specific shift in the next two weeks, upon receipt of this order, with a specific focus on closing the

resident door to confine the fire and smoke and the evacuation stages.

4) Maintain a written record of the silent code red and code green fire drill, including the date the drill was completed, names and designation of who conducted the drills, the names of the staff who participated in the drill, the results and actions taken in response to the drills.

Grounds

The licensee has failed to ensure that the emergency plan was implemented when dealing with a fire emergency.

In accordance with O. Reg 246/22 s. 11 (1)(b), the licensee is required to ensure that their emergency plan for fire was complied with.

Specifically, staff did not comply with the policy "Fieldstone Commons Care Community Emergency Plan," which indicated that the resident's door should be closed to confine the fire and smoke in "code red" and the removal of all residents from the immediate fire area in "code green."

Rationale and Summary

A fire was discovered in a resident room. The resident was removed from their room, their door was left open, and other residents were not evacuated from the immediate fire area until after the fire department arrived.

Multiple staff members confirmed that only one resident was removed from the fire area, and the evacuation of other residents should have been initiated by the staff who attended the fire as outlined in code green.

When staff did not close the door of the affected resident room and appropriately evacuate the surrounding residents, residents were at increased risk of injury and harm from the fire.
