Inspection Report under the Long-Term Care Homes Act, 2007

Ministère de la Santé et des Soins de longue durée

Rapport d'inspection sous la Loi de 2007 sur les foyers de soins de longue durée

Findings/Faits saillants :

1. The licensee has failed to ensure that the resident was reassessed and the plan of care reviewed and revised at least every six months and at any other time when the resident's care needs change.

Review of progress notes revealed Resident # 1 sustained a fall.

Record review of Resident # 1 Minimum Data Set (MDS) Quarterly Assessment revealed there was no change noted in physical functioning and participation in ADL's since the last MDS assessment completed.

Record review of the Point of Care documentation by the Personal Support Workers (PSWs) during the observation period revealed there was a decline in the resident's participation and staff support for Activities of Daily Living (ADLs). The MDS Quarterly Assessment indicated no change in ADLs.

The Resident Assessment Instrument Coordinator (RAI-C) confirmed there was a significant change in Resident #1 physical function and participation in ADLs. The RAI-C confirmed an MDS assessment should have been completed related to the resident's decline, the MDS assessment did not accurately represent the resident's needs and confirmed it is the responsibility of the registered staff member completing the MDS to review the data for accuracy before signing as complete.

Staff interview with the Administrator confirmed it is the home's expectation that an MDS assessment be completed for any resident where a significant change in status has occurred and the care plan updated according to assessment findings. [s. 6. (10) (b)]

Additional Required Actions:

**VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)
the licensee is hereby requested to prepare a written plan of correction for
achieving compliance to ensure that the resident reassessed and the plan of care
reviewed and revised at least every six months and at any other time when the
resident's care needs change, to be implemented voluntarily.**
