Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (a requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA).

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

**WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6.

Specifically failed to comply with the following:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

s. 6. (10) The licensee shall ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time when,

(a) a goal in the plan is met; 2007, c. 8, s. 6 (10).

(b) the resident's care needs change or care set out in the plan is no longer necessary; or 2007, c. 8, s. 6 (10).

(c) care set out in the plan has not been effective. 2007, c. 8, s. 6 (10).

Findings/Faits saillants :

1. The licensee failed to ensure that the Advanced Directive set out in the plan of care is provided to the resident as specified in the plan.

Record review of the progress notes revealed the resident's level of care request for medical crisis, and a description of the incident where by staff did not provide the care as requested.

Staff interview with a Registered Practical Nurse (RPN) on October 31, 2014 confirmed staff are to respond to all medical emergencies according to the resident's wishes.

The Administrator confirmed that Advanced Directives were not provided for Resident # 2 and it is the home's expectation that staff follow the procedure as requested for all residents. [s. 6. (7)]

2. The licensee has failed to ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time when the resident's care needs change or care set out in the plan is no longer necessary.

Record review of the Quarterly Minimum Data Set (MDS) Assessment revealed Resident # 1 significantly changed in physical function and participation in Activities of Daily Living (ADLs). The Resident was independent of staff's physical assistance prior to the injury and now requires extensive weight bearing assistance for most care. The Care Plan was

not updated to reflect this significant change.

Staff interview with a Registered Practical Nurse (RPN) revealed it is the responsibility of the registered staff working on the Home Care Area to update the Care Plan on the day the resident returns from hospital and communicate any changes with the nursing team. The RPN confirmed the interventions on the Care Plan and Kardex should be current and up to date.

Staff interviews with two Personal Support Workers confirmed the Kardex was not updated when the resident's care needs changed. Behaviour/mood, toileting, incontinence, bed mobility, ambulation, hygiene, dressing, and bathing were identified by the PSWs as sections of the Kardex that required revision.

Interview with the Administrator on October 31, 2014 confirmed it is the home's expectation that all residents are reassessed and the plan of care updated when care needs change. [s. 6. (10) (b)]

Specifically failed to comply with the following:

- s. 31. (2) The restraining of a resident by a physical device may be included in a resident's plan of care only if all of the following are satisfied:
1. There is a significant risk that the resident or another person would suffer serious bodily harm if the resident were not restrained. 2007, c. 8, s. 31 (2).
 2. Alternatives to restraining the resident have been considered, and tried where appropriate, but would not be, or have not been, effective to address the risk referred to in paragraph 1. 2007, c. 8, s. 31 (2).
 3. The method of restraining is reasonable, in light of the resident's physical and mental condition and personal history, and is the least restrictive of such reasonable methods that would be effective to address the risk referred to in paragraph 1. 2007, c. 8, s. 31 (2).
 4. A physician, registered nurse in the extended class or other person provided for in the regulations has ordered or approved the restraining. 2007, c. 8, s. 31 (2).
 5. The restraining of the resident has been consented to by the resident or, if the resident is incapable, a substitute decision-maker of the resident with authority to give that consent. 2007, c. 8, s. 31 (2).
 6. The plan of care provides for everything required under subsection (3). 2007, c. 8, s. 31 (2).

1. The licensee failed to ensure the restraining of a resident by a physical device may be included in a resident's plan of care only if alternatives to restraining the resident have been considered and tried where appropriate, but would not be, or have not been, effective to address the risk, a physician, registered nurse in the extended class or other person provided for in the regulations has ordered or approved the restraining, the restraining of the resident has been consented to by the resident or, if the resident is incapable, a substitute decision-maker (SDM) of the resident with authority to give that consent and the plan of care provides for everything required under subsection (3).

Record review on October 31, 2014 of restraint / PASD documentation for 6 residents revealed the following:

- a) No "Alternative to Restraints or PASD Assessment Form" completed for any of the 6 residents
- b) No "Restraints and PASD Consent and Physician Order Sheet" completed for any of the 6 residents, therefore an order was not obtained prior to the initial application of a Restraint / PASD
- c) Physician's Orders in Point Click Care (PCC) were not consistently documented
- d) PCC Point of Care did not consistently document the type of restraint / PASD in use and the monitoring requirement for Personal Support Workers (PSWs)
- e) Inconsistent documentation of Restraints / PASDs on the 3 Month Medication Reviews
- f) Inconsistent documentation of Restraints / PASDs in the residents care plans

Staff interview with the Resident Care Coordinator (RCC) confirmed every resident using a restraint and/or PASD requires a physician's order or registered nurse approval, Resident/SDM consent, monitoring in Point of Care (POC) by the PSW staff and documentation in the Care Plan. The RCC confirmed these 6 residents did not have the "Alternative to Restraints or PASD Assessment Form or the " Restraints and PASD Consent and Physician Order Sheet" completed.

Staff interview with the Manager of Resident Care confirmed it is the home's expectation that all residents using a restraint and/or PASD have the appropriate documentation in place. [s. 31. (2)]
