WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 17. Communication and response system

Specifically failed to comply with the following:

s. 17. (1) Every licensee of a long-term care home shall ensure that the home is equipped with a resident-staff communication and response system that,
(a) can be easily seen, accessed and used by residents, staff and visitors at all times; O. Reg. 79/10, s. 17 (1).
(b) is on at all times; O. Reg. 79/10, s. 17 (1).
(c) allows calls to be cancelled only at the point of activation; O. Reg. 79/10, s. 17 (1).
(d) is available at each bed, toilet, bath and shower location used by residents; O. Reg. 79/10, s. 17 (1).
(e) is available in every area accessible by residents; O. Reg. 79/10, s. 17 (1).
(f) clearly indicates when activated where the signal is coming from; and O. Reg. 79/10, s. 17 (1).
(g) in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. O. Reg. 79/10, s. 17 (1).

Findings/Faits saillants :

1. The licensee has failed to ensure the home is equipped with a resident-staff communication and response system which allows calls to be cancelled only at the point of activation.

On an identified date, resident #004 was found by staff incontinent of urine. The resident reported they rang the call bell throughout the night, but no one came to assist them to the bathroom. The resident believed the call bell was not functioning. The staff tested the call bell at that time and found it to be in good working order.

The home investigated the allegation of staff to resident neglect. The Administrator was interviewed and indicated she believed the resident rang for assistance, but the staff member had turned off the call bell and not provided the care.

PSWs #104 and #105 were interviewed in regards to where call bells can be cancelled. Both staff indicated call bells can be cancelled at the bedside and also from a point outside of the resident room. The staff members were able to demonstrate this from telephones located in the work stations at the mid points of each resident hallway. The staff indicated resident calls can be answered through these phones and that staff can speak with the resident to determine the reason they are calling. Both stated in addition to being able to speak with the resident, the call light can also be turned off and cancelled from the point of these phones.

In accordance with the legislation, the resident to staff communication and response system must allow calls to be cancelled only at the point of activation. [s. 17. (1) (c)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care

Specifically failed to comply with the following:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

1. The licensee has failed to ensure resident #004 received continence care in accordance with the plan of care.

Resident #004's care plan was reviewed related to toileting and indicated the resident was continent of urine and would ask staff for assistance with toileting. PSW staff were interviewed and were able to confirm the same.

At the time of the incident, resident #004 indicated to staff they had attempted to ring for staff assistance but believed the call bell was not working.

As outlined in WN #1, the home determined resident #004 was not toileted in accordance with the plan of care and as a result was found to be incontinent of urine. The resident had rang the call bell to be toileted and staff did not respond.

The resident was interviewed during this inspection and indicated they could not recall the incident, however indicated they would be very upset and embarrassed if unable to get to the toilet in time.

At the time of this incident, the home had previously been issued a compliance order related to not providing care in accordance with the resident plan of care. The order was issued during the November 2015 Resident Quality Inspection (RQI) with a compliance date of December 8, 2015. [s. 6. (7)]

WN #3: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 23. Licensee must investigate, respond and act

Specifically failed to comply with the following:

s. 23. (2) A licensee shall report to the Director the results of every investigation undertaken under clause (1) (a), and every action taken under clause (1) (b). 2007, c. 8, s. 23 (2).

Findings/Faits saillants :

1. The licensee has failed to ensure results of the investigations into allegations of neglect were reported to the Director (MOHLTC).

On October 20, 2015, the home submitted a critical incident report (CIR) to the MOHLTC to report an allegation of staff neglect involving resident #003. The home investigated the allegation, but failed to report the outcome of the investigation to the Director. [s. 23. (2)]

2. On October 21, 2015, the home submitted a CIR to the MOHLTC to report an allegation of staff neglect involving resident #004. The home investigated the allegation, but failed to report the outcome of the investigation to the Director. [s. 23. (2)]
