**WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 15. Accommodation services**

**Specifically failed to comply with the following:**

- s. 15. (2) Every licensee of a long-term care home shall ensure that,**
- (a) the home, furnishings and equipment are kept clean and sanitary; 2007, c. 8, s. 15 (2).**
  - (b) each resident's linen and personal clothing is collected, sorted, cleaned and delivered; and 2007, c. 8, s. 15 (2).**
  - (c) the home, furnishings and equipment are maintained in a safe condition and in a good state of repair. 2007, c. 8, s. 15 (2).**

**Findings/Faits saillants :**

1. The licensee has failed to ensure the fans located in the resident home area hallways were kept clean and sanitary.

During observations of the home it was noted that each resident home area was equipped with wall mounted fans in the hallways and staff were able to turn them on or off as required for air circulation. Some fans were observed on and others were not. During the observation period of February 8 and 9, 2021, three out of four fans in the North resident home area hallway, three out of three fans on the East resident home area hallway and two out of two fans of the West resident home area hallway, were observed to be soiled with dust and debris. During an interview with the Environmental Services Supervisor (ESS) it was indicated that the fans were on a cleaning schedule and acknowledged the schedule to be insufficient.

Not ensuring the fans were kept free of dirt and debris posed a potential risk for ineffective infection control practices.

**WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 3. Residents' Bill of Rights**

**Specifically failed to comply with the following:**

**s. 3. (1) Every licensee of a long-term care home shall ensure that the following rights of residents are fully respected and promoted:**

**14. Every resident has the right to communicate in confidence, receive visitors of his or her choice and consult in private with any person without interference. 2007, c. 8, s. 3 (1).**

**Findings/Faits saillants :**

1. The licensee has failed to ensure that residents were able to receive their identified essential care givers without interference.

A complaint was submitted to the Ministry of Long-term Care (MLTC) relating to the home stopping essential visits. Subsequently not allowing residents to have their identified essential care givers attend the home. An electronic mail (e-mail) correspondence which was provided by the complainant addressed from the home indicating that the home would be ceasing all essential visits. The administrator also provided a copy of the same e-mail which stated that all essential visits with the exception of compassionate care would be suspended from “Sunday January 24, 2021, and would extend until Friday, February 26th, 2021, at which point it would be reassessed based on risk”. The Public Health Unit (PHU) Inspector assigned to the home indicated that at no time did the local PHU provide the home with direction to stop essential visits. The administrator indicated that the direction to stop all essential visits came from corporate office, however two residents did have an essential care giver coming in due to their concerning conditions. On February 8, 2021, the administrator indicated to the MLTC inspector that the direction from corporate office had changed and essential care givers were being allowed back into the facility as of February 8, 2021.

Not allowing the residents to have the identified essential care givers visit provided a potential minimal risk.

Sources: E-mail correspondents from the home to families and staff interviews with the administrator. [s. 3. (1) 14.]

***Additional Required Actions:***

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that residents were able to receive their identified essential care givers without interference, to be implemented voluntarily.***

Not ensuring the fans were kept free of dirt and debris posed a potential risk for ineffective infection control practices.

Sources: Observation and ESS interview.

An order was made taking the following factors into account;

**Severity:** The fans in the hallways of the resident home areas were observed to be soiled with dust and debris presenting a risk for ineffective infection control practices and a potential for minimal harm or potential for actual harm.

**Scope:** The scope of this issue was widespread during the course of observations in this inspection as all but one fan were observed to be soiled with dust and debris.

**Compliance History:** 5 Written Notifications and 4 Voluntary Plans of Correction, were issued to the home related to different sub-sections of the legislation in the last 36 months.
