In accordance with the definition identified in section 2(1) of the Regulation 79/10 “physical abuse” means the use of physical force by anyone other than a resident that causes physical injury or pain.

The home’s records indicated an argument occurred between a resident and a PSW, when the resident refused to return an item. Inspection Report under the Long-Term Care Homes Act, 2007**Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

1. The licensee has failed to ensure that the care set out in a resident's plan of care related to responsive behaviours was provided to the resident.

The resident's care plan identified several distraction techniques that staff should use when responding to the resident's responsive behaviours. The home's records indicated that the resident was wandering the hallway when they found an item. The resident was approached by a Personal Support Worker (PSW) repeatedly asking them to return the item they had taken. The resident refused. The PSW followed the resident in the direction of the elevator in an attempt to recover the item. When the doors opened, and the resident proceeded to enter the elevator with the PSW following closely behind. The PSW stopped the elevator door from closing by standing in the doorway. An argument occurred between the resident and the PSW, when the resident refused to return the item, this led to a physical altercation and the resident sustained an injury. The Behavioural Support Ontario (BSO) Lead and Assistant Administrator acknowledged that the PSW failed to utilized the distraction techniques identified in the resident's care plan in their attempt to retrieve the item the resident had taken.

Sources: critical incident system (CIS) report, home's records, the resident's care plan, and interview with the Assistant Administrator and other staff. [s. 6. (7)]

2. The licensee has failed to ensure that a PSW who provided direct care to a resident was kept aware of the resident's plan of care related to responsive behaviours.

The home's records indicated that a resident's behaviour escalated when they were approached by a PSW repeatedly asking them to return an item they had taken. An argument occurred between the resident and the PSW, that led to a physical altercation and the resident getting injured. The PSW told the inspector that they had not reviewed the resident's care plan and therefore was unaware of the distraction techniques that should have been used when approaching the resident to retrieve the item.

Sources: CIS report, home's records, the resident's care plan and interview with the Assistant Administrator and other staff. [s. 6. (8)]
