1. A resident was observed unattended on the toilet with a mechanical lift and sling attached to the resident. Two Personal Support Workers commented that related to work requirements they could not remain with residents who were toileted with the use of a mechanical lift and then required time to sit on the toilet. The Director of Care and a Registered Nurse indicated the resident should not be left unattended with the mechanical lift attached. [Reference: LTCHA, 2007, S.O. 2007, c.8, s.3(1)4]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure staff use safe practices when using a mechanical lift, to be implemented voluntarily.

WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care**Specifically failed to comply with the following subsections:**

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

The care set out in the plan of care was not provided to a resident as follows:

1. The May to September 2011 Quarterly Medication Reviews indicated a treatment was to be provided three to four times daily. Documentation was intermittent from July 21 to September 20, 2011 with thirty-five days where provision of the treatment or assessment of the area for healing was not documented.

2. The September 21 to October 20, 2011 Treatment Administration Record indicated a change from daily monitoring to weekly monitoring for the resident. There was no documentation for a twelve day interval to indicate the monitoring occurred.

3. The resident's plan of care identified the resident was to receive one bath per week. The "PSW Documentation Record" for October 1 to October 20, 2011 did not indicate the resident was provided a bath. Coding on the record indicated "8" for "bath did not occur".

4. The resident's plan of care indicated the resident wore a specific type of continence care product. Staff providing care October 21, 2011 applied a different continence care product than indicated on the plan of care. [Reference: LTCHA, 2007, S.O. 2007, c.8, s.6 (7)].
