**WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6.
Plan of care**

Specifically failed to comply with the following:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

1. The licensee has failed to ensure that care set out in the plan of care was provided to resident #001.

Resident #001's written plan of care indicated that they were at an identified nutritional risk and required a texture-modified diet. The most recent Nutrition Assessment, completed by the RD, indicated that the resident had difficulty with certain types and textures of food and required assistance with eating.

The licensee's policy 'Therapeutic Diets and Fluid/Texture Modification' (CARE7-O10.06, last reviewed/modified March 31, 2019), referred to guidelines for specific diet textures and provided clear direction on what constituted each type of diet texture, and examples of foods that did not.

CIS 2849-000018-20 was submitted to the Director on an identified date in 2020, which identified that on that date, the diet texture was not provided by staff as per the plan of care which resulted in significant harm to resident #001.

Through review of the home's internal investigation notes, as well as interviews with the Interim ED, RD, Recreation Manager, RPN #107, and RA #105, it was determined that the food item given to the resident was not suitable for their assessed diet texture.

The care set out in resident #001's plan of care related to a specific therapeutic diet texture was not provided to the resident. [s. 6. (7)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

Order / Ordre :

The licensee must be compliant with s. 6 (7) of the LTCHA.

Specifically, the licensee must:

1. Ensure that any resident on a texture-modified diet is only provided with foods that are appropriate for the assessed diet texture;
2. Re-train staff #105 on texture-modified diets; and,
3. Keep a record of the training in the home.

1. The licensee has failed to ensure that care set out in the plan of care was provided to resident #001.

Resident #001's written plan of care indicated that they were at an identified nutritional risk and required a texture-modified diet. The most recent Nutrition Assessment, completed by the RD, indicated that the resident had difficulty with certain types and textures of food and required assistance with eating.

The licensee's policy 'Therapeutic Diets and Fluid/Texture Modification' (CARE7-O10.06, last reviewed/modified March 31, 2019), referred to guidelines for specific diet textures and provided clear direction on what constituted each type of diet texture, and examples of foods that did not.

Through review of the home's internal investigation notes, as well as interviews with the Interim ED, RD, Recreation Manager, RPN #107, and RA #105, it was determined that the food item given to the resident was not suitable for their assessed diet texture.

The care set out in resident #001's plan of care related to a specific therapeutic diet texture was not provided to the resident.

The severity of this issue was determined to be a level 3 as there was actual harm to the resident. The scope of the issue was a level 1 as it was related to one of three residents reviewed. The home had a level 3 compliance history as they had one or more non-compliances, one of which was the same subsection that included:

-Voluntary plan of correction (VPC) issued November 6, 2018 (2018_573581_0011) related to falls management. (586)
