**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 26. Plan of care
Specifically failed to comply with the following:**

s. 26. (3) A plan of care must be based on, at a minimum, interdisciplinary assessment of the following with respect to the resident:

19. Safety risks. O. Reg. 79/10, s. 26 (3).

Findings/Faits saillants :

1. The licensee did not ensure that the plan of care for resident # 009 was based on an interdisciplinary assessment of their safety risks.

A) On an identified date in 2013, resident # 009 exited the home area into the secure courtyard area outside where they sustained a fall that resulted in transfer to hospital.

- The Falls Risk Assessments completed in the electronic documentation system for the resident indicated that the resident was a high risk for falls.

- The Director of Care and staff at the home confirmed that the resident should not have gone outside in the secure courtyard without supervision.

- The document that the home refers to as the care plan that was confirmed to be the care plan that was in place when the resident sustained the fall did not identify the potential risks associated with resident going outside into the courtyard or strategies in place to maintain the resident's safety.

The care plan was not based on an assessment of the safety risks associated with the resident's potential to exit into the courtyard area without supervision. [s. 26. (3) 19.]
