WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 101. Dealing with complaints

Specifically failed to comply with the following:

- s. 101. (2) The licensee shall ensure that a documented record is kept in the home that includes,**
- (a) the nature of each verbal or written complaint; O. Reg. 79/10, s. 101 (2).**
 - (b) the date the complaint was received; O. Reg. 79/10, s. 101 (2).**
 - (c) the type of action taken to resolve the complaint, including the date of the action, time frames for actions to be taken and any follow-up action required; O. Reg. 79/10, s. 101 (2).**
 - (d) the final resolution, if any; O. Reg. 79/10, s. 101 (2).**
 - (e) every date on which any response was provided to the complainant and a description of the response; and O. Reg. 79/10, s. 101 (2).**
 - (f) any response made in turn by the complainant. O. Reg. 79/10, s. 101 (2).**

Findings/Faits saillants :

1. The licensee has failed to ensure that a documented record is kept in the home that includes (a) the nature of each verbal or written complaint; (b) the date the complaint was received; (c) the type of action taken to resolve the complaint, including the date of the action, time frames for actions to be taken and any follow-up action required; (d) the final resolution, if any (e) every date on which any response was provided to the complainant and a description of the response, and (f) any response made by the complainant.

A complaint was received by the Ministry of Health and Long Term Care, on an identified date, whereby complainant, resident #001, expressed concerns, had reported them to management and had not received a response.

An interview with resident #001 revealed the expressing concerns to management by way of speaking with or leaving a voice mail message for identified staff. The interview revealed that the resident had expressed concerns identified as concern #1, #2 and #3.

A review of the resident's progress notes over a five month period failed to identify documentation related to the resident's concerns.

A record review of the home's complaint binder for 2017 and 2018 failed to identify any logged complaints received by resident #001.

An interview PCA #111 identified that resident #001 had voiced complaints around concern #1.

An interview with RN #100 shared that resident #001 had complained about concern #2.

An interview with PCA #113 stated that resident #001 complains all the time about the home and resident stated the home was not doing anything about their concerns.

An interview with RPN #112 stated a staff, however unable to recall the staffs name, reported to them that the resident had a concern related to issue #2. When asked if this complaint was investigated RPN #112 shared that it was related to resident #001's behaviours.

An interview with Social Worker #118 revealed that most of resident #001's concerns were related to concern #3 and that the resident had been voicing this concern for years. The SW further stated that resident #001 does leave many voice mail messages and had expressed concerns around issue #2

An interview with Nurse Manager Operational #105 revealed that if a PSW or registered staff receive a complaint regarding care or services they document in the progress notes and depending on the severity of the concern it would get documented in the 24 hour report. The NM stated that registered staff would try and deal with it and make a note in the progress note or 24 hour report depending on the nature of the complaint. The NM that depending on the nature of the concern issues are brought forward from the 24 hrs report to be discussed at the morning management meeting. The NM stated that the Administrator would log the concerns discussed. The NM revealed that they document in the progress note when they receive a significant complaint. When asked if any concerns have been brought forward by resident #001 NM shared that they had expressed concern related to issue #1. NM stated their response to resident #001 was asking them what they would like them to do about it. NM shared that for as long as they have been there resident #001 has complained about concern #3.

A record review of the home's policy entitled Managing and Reporting Complaints AD-0515-00 Section 05-Information and Privacy Published 01-04-2016 included the following:

If you are unable to resolve the complaint thank the complainant for bringing it to your attention and advise the complainant which manager you will be forwarding their complaint to. Advise the manager of the complaint.

Immediately initiate an investigation of the complaint including date, time, location, witness and submit to immediate supervisor.

All complaints need to be logged, regardless of whether they are verbal or in writing.

An interview with the Administrator shared that most of the complaints go through the nurse or the nurse manager they have the ability to resolve it and follow up with the complaint. The manager will say to me a verbal complaint came up and it has been three days and hasn't been resolved. If it's been over 24 hours we will log it. The administrator shared that resident #001 does express concerns to them but that they try and deal with it within 24 hours.

The licensee failed to ensure that a documented record is kept in the home that included (a) the nature of each verbal or written complaint; (b) the date the complaint was received; (c) the type of action taken to resolve the complaint, including the date of the action, time frames for actions to be taken and any follow-up action required; (d) the final resolution, if any (e) every date on which any response was provided to the complainant and a description of the response, and (f) any response made by the complainant, for the complaints they received from resident #001. [s. 101. (2)]

2. As a result of non-compliance being identified related to resident #001 and the complaint process the sample size was expanded by two additional residents including resident #011.

During an interview resident #011 shared with Inspector #746 that they had brought forward two concerns over an identified time period, to which they had not received a response. The resident expressed both concerns and are identified as concern #1 and #2. The resident identified they had spoken with SW #118 who shared they would communicate to Clinical Nurse Manager #103. The resident further stated that Nurse manager #103 had spoken with them and asked them if they would be willing to verify the statements to which the resident agreed. Resident #011 shared that they never heard back from anyone including Clinical Nurse Manager #103.

A record review of the resident's progress notes over an identified six month

period failed to identify any concerns raised by the resident.

A review of the 2018 complaint binder failed to identify any concerns brought forward by resident #011.

An interview with SW #118 confirmed that resident #011 had brought forward a concern about issue #2 but not issue #1. The SW shared that they passed along a message to Nurse Manager #103 that resident #011 was upset and asked them to speak with them.

An interview with Clinical Nurse Manager (CNM) #103 revealed that the manager of the unit would investigate complaints and respond back to the complainant and document in the resident's progress notes. The CNM shared they did not recall hearing from SW #118 that resident #011 had reported concerns #1 and #2. The CNM shared that the SW did bring forward another concern of resident #011 that they had followed up with the resident in this regard and communicated the concern to Nurse Manager Operational (NMO) #117.

An interview with Nurse Manager Operational #117 shared that whoever received the resident complaint was responsible for following up with the resident. Inspectors #110 and #746 shared resident #011's concerns. The Nurse Manager stated it was the first time hearing of resident #011's concerns. [s. 101. (2)]

3. A complaint inspection, report #2019_486653_0004 related to complaints identified log #(s) was conducted concurrently by Inspector #653 which expanded the sample size to three residents/SDM.

The Ministry of Health and Long-Term Care (MOHLTC) ACTIONline had received a complaint on an identified date related to resident #009's preferences and care needs.

A review of resident #009's health records revealed they had been admitted to the home on an identified date and discharged months later.

An interview with PSW #134 on February 4, 2019, at 0930hrs, indicated they recalled resident #009's family had complained about concern #1 and that they had raised a number of concerns.

An interview with Social Worker (SW) #131 on February 1, 2019, at 0850hrs,

indicated they remember resident #009's family making numerous complaints. The SW stated that resident #009's family member communicated constantly to Previous Nurse Manager Operational (PNMO) #137. The SW further indicated the resident's family member had expressed concern around issue #1.

A telephone interview with PNMO #137 on February 4, 2019, at 1337hrs, indicated they recalled receiving concerns from resident #009's family member. The PNMO stated they would have documented on the concerns and complaints forms and placed it in a black binder kept in their previous office in the home.

A review of resident #009's family member's correspondence with the home revealed the following:

-On an identified date, resident #009's family member had sent correspondence addressed to the home's previous Administrator carbon copied to PNMO #137, the Assistant Administrator, and the DON. The e-mail had outlined concerns pertaining to resident #009's care needs.

-On a separate identified date resident #009's family member had sent correspondence addressed to PNMO #137, outlining concerns they had identified during their visit to the resident in the home on an identified date.

-On a separate identified date, resident #009's family member had sent correspondence addressed to PNMO #137, outlining concerns they had identified during their visit to the resident in the home on an identified date.

During the course of the inspection, Inspector #653 reviewed the home's 2017 complaints binder and did not find any documented record of complaints pertaining to resident #009. NMO #117 also searched for PNMO #137's concerns and complaints black binder, however, they did not find it.

As per record reviews and staff interviews, the home was unable to provide evidence that a documented record was kept in the home that included (a) the nature of each verbal or written complaint; (b) the date the complaint was received; (c) the type of action taken to resolve the complaint, including the date of the action, time frames for actions to be taken and any follow-up action required; (d) the final resolution, if any; (e) every date on which any response was provided to the complainant and a description of the response; and (f) any response made in turn by the complainant, for the complaints they had received from resident #009's family member. (b) if the plan of care is being revised because care set out in the plan has not been effective, the licensee shall ensure that different approaches are considered in the revision of the plan of care. 2007, c. 8, s. 6 (11).

Findings/Faits saillants :

1. The licensee failed to ensure when a resident is reassessed and the plan of care reviewed and revised if the plan of care is being revised because care set out in the plan has not been effective, the licensee shall ensure that different approaches are considered in the revision of the plan of care.

A record review of resident #001's written plan of care identified a statement of resident #001's psychosocial well-being with goals and related to factors and interventions.

An interview with resident #001 expressed concern with their psychosocial well-being in the home related to staff comments.

An interview with PCA #111, PCA #113 and NM #105 shared comments that would not in support of residents psychosocial well-being plan of care.

An interview with SW #118 shared an unawareness that staff have made comments and that these conversations would not meet the resident's psychosocial needs and could make the resident feel unwelcome in the home. The SW shared the resident's written plan of care related to their psychosocial needs had not been reviewed and revised with different approaches considered in the revision of the plan of care and that the current plan of care was not effective in meeting the resident's psychosocial needs. forward by resident #001 NM shared that they had expressed concern related to issue #1. NM stated their response to resident #001 was asking them what they would like them to do about it. NM shared that for as long as they have been there resident #001 has complained about concern #3.

A record review of the home's policy entitled Managing and Reporting Complaints AD-0515-00 Section 05-Information and Privacy

Published 01-04-2016 included the following:

If you are unable to resolve the complaint thank the complainant for bringing it to your attention and advise the complainant which manager you will be forwarding their complaint to. Advise the manager of the complaint.

Immediately initiate an investigation of the complaint including date, time, location, witness and submit to immediate supervisor.

All complaints need to be logged, regardless of whether they are verbal or in writing.

An interview with the Administrator shared that most of the complaints go through the nurse or the nurse manager they have the ability to resolve it and follow up with the complaint. The manager will say to me a verbal complaint came up and it has been three days and hasn't been resolved. If it's been over 24 hours we will log it. The administrator shared that resident #001 does express concerns to them but that they try and deal with it within 24 hours.

The licensee failed to ensure that a documented record is kept in the home that included (a) the nature of each verbal or written complaint; (b) the date the complaint was received; (c) the type of action taken to resolve the complaint, including the date of the action, time frames for actions to be taken and any follow-up action required; (d) the final resolution, if any (e) every date on which any response was provided to the complainant and a description of the response, and (f) any response made by the complainant, for the complaints they received from resident #001. [s. 101. (2)]

2. As a result of non-compliance being identified related to resident #001 and the complaint process the sample size was expanded by two additional residents including resident #011.

During an interview resident #011 shared with Inspector #746 that they had brought forward two concerns over an identified time period, to which they had not received a

response. The resident expressed both concerns and are identified as concern #1 and #2. The resident identified they had spoken with SW #118 who shared they would communicate to Clinical Nurse Manager #103. The resident further stated that Nurse manager #103 had spoken with them and asked them if they would be willing to verify the statements to which the resident agreed. Resident #011 shared that they never heard back from anyone including Clinical Nurse Manager #103.

A record review of the resident's progress notes over an identified six month period failed to identify any concerns raised by the resident.

A review of the 2018 complaint binder failed to identify any concerns brought forward by resident #011.

An interview with SW #118 confirmed that resident #011 had brought forward a concern about issue #2 but not issue #1. The SW shared that they passed along a message to Nurse Manager #103 that resident #011 was upset and asked them to speak with them.

An interview with Clinical Nurse Manager (CNM) #103 revealed that the manager of the unit would investigate complaints and respond back to the complainant and document in the resident's progress notes. The CNM shared they did not recall hearing from SW #118 that resident #011 had reported concerns #1 and #2. The CNM shared that the SW did bring forward another concern of resident #011 that they had followed up with the resident in this regard and communicated the concern to Nurse Manager Operational (NMO) #117.

An interview with Nurse Manager Operational #117 shared that whoever received the resident complaint was responsible for following up with the resident. Inspectors #110 and #746 shared resident #011's concerns. The Nurse Manager stated it was the first time hearing of resident #011's concerns. [s. 101. (2)]

3. A complaint inspection, report #2019_486653_0004 related to complaints identified log #(s) was conducted concurrently by Inspector #653 which expanded the sample size to three residents/SDM.

The Ministry of Health and Long-Term Care (MOHLTC) ACTIONline had received a complaint on an identified date related to resident #009's preferences and care

needs.

A review of resident #009's health records revealed they had been admitted to the home on an identified date and discharged months later.

An interview with PSW #134 on February 4, 2019, at 0930hrs, indicated they recalled resident #009's family had complained about concern #1 and that they had raised a number of concerns.

An interview with Social Worker (SW) #131 on February 1, 2019, at 0850hrs, indicated they remember resident #009's family making numerous complaints. The SW stated that resident #009's family member communicated constantly to Previous Nurse Manager Operational (PNMO) #137. The SW further indicated the resident's family member had expressed concern around issue #1.

A telephone interview with PNMO #137 on February 4, 2019, at 1337hrs, indicated they recalled receiving concerns from resident #009's family member. The PNMO stated they would have documented on the concerns and complaints forms and placed it in a black binder kept in their previous office in the home.

A review of resident #009's family member's correspondence with the home revealed the following:

-On an identified date, resident #009's family member had sent correspondence addressed to the home's previous Administrator carbon copied to PNMO #137, the Assistant Administrator, and the DON. The e-mail had outlined concerns pertaining to resident #009's care needs.

-On a separate identified date resident #009's family member had sent correspondence addressed to PNMO #137, outlining concerns they had identified during their visit to the resident in the home on an identified date.

-On a separate identified date, resident #009's family member had sent correspondence addressed to PNMO #137, outlining concerns they had identified during their visit to the resident in the home on an identified date.

During the course of the inspection, Inspector #653 reviewed the home's 2017 complaints binder and did not find any documented record of complaints pertaining to resident #009. NMO #117 also searched for PNMO #137's concerns and complaints black binder, however, they did not find it.

2. As a result of non-compliance being identified related to resident #001 and the complaint process the sample size was expanded by two additional residents including resident #011.

During an interview resident #011 shared with Inspector #746 that they had brought forward two concerns in the summer and fall of 2018, to which they had not received a response. The resident identified the one incident that while in the hallway on nights assisting their unsteady roommate to prevent their fall they screamed out loud for help to a PCA who saw them struggling with the roommate and was ignored. The other incident was a concern that one evening a male night nurse had not taken their vitals and blood sugar as required. The resident identified they had spoken with SW #118 who shared they would communicate to Clinical Nurse Manager #103. The resident further stated that Nurse manager #103 had spoken with them and asked them if they would be willing to verify the statements to which the resident agreed. Resident #011 shared that they never heard back from anyone including Clinical Nurse Manager #103.

A record review of the resident's progress notes from July 17, 2018- January 20, 2019 failed to identify any concerns raised by the resident.

A review of the 2018 complaint binder failed to identify any concerns brought forward by resident #011.

An interview with SW #118 confirmed that resident #011 had brought forward a concern about a PCA failing to assist them when they were struggling to assist their roommate but not the second issue related to the registered nurse. The SW shared that they passed along a message to Nurse Manager #103 that resident #011 was upset and asked them to speak with them.

An interview with Clinical Nurse Manager (CNM) #103 shared that the manager of the unit would investigate complaints and respond back to the complainant and document in the resident's progress notes. The CNM shared they did not recall hearing from SW #118 that resident #011 had reported their vitals and blood sugar levels had not been taken by an evening night nurse or that they had been ignored by a PCA when in need of assistance. The CNM shared that the SW did bring forward a concern that resident #011 was uncomfortable with a night male nurse and had followed up with the resident in this regard and communicated the concern to Nurse Manager Operational (NMO) #117.

An interview with Nurse Manager Operational #117 shared that whoever receives the resident complaint is responsible for following up with the resident. Inspectors #110 and #746 shared resident #011's concerns. The Nurse Manager stated it was the first time hearing of resident #011's concerns.. (110)

3. A complaint inspection, report #2019_486653_0004 related to complaints log #(s): 009354-17, 009967-17 was conducted concurrently by Inspector #653 which expanded the sample size to three residents/SDM.

The Ministry of Health and Long-Term Care (MOHLTC) ACTIONline had received complaint #IL-50769-TO on May 11, 2017, at 0938hrs, related to resident #009's bedtime, rest routines, and medication administration.

A review of resident #009's health records revealed they had been admitted to the home on April 28, 2017, and discharged from the home on August 7, 2017. The

resident was admitted to a private room with a shared washroom.

An interview with PSW #134 on February 4, 2019, at 0930hrs, indicated they recall resident #009's family complained about the co-neighbouring resident's screaming and yelling. A telephone interview with RN #133 on February 4, 2019, at 1100hrs, indicated resident #009's family member raised concerns on just about anything, and complained a lot.

An interview with Social Worker (SW) #131 on February 1, 2019, at 0850hrs, indicated they remember resident #009's family making numerous complaints and had issues around every discipline: food, rehab, and nursing. The SW stated that resident #009's family member constantly wrote e-mails to Previous Nurse Manager Operational (PNMO) #137. The SW further indicated the resident's family member had an issue around the co-neighbouring resident who shared the washroom with resident #009. The family member expressed concerns that the co-neighbouring resident was loud and disturbed resident #009's sleep.

A telephone interview with PNMO #137 on February 4, 2019, at 1337hrs, indicated they recall receiving concerns from resident #009's family member. The PNMO stated they would have documented on the concerns and complaints forms and placed it in a black binder kept in their previous office in the home.

A review of resident #009's family member's e-mail correspondence with the home revealed the following:

-On May 27, 2017, at 1740hrs, resident #009's family member had sent a four page e-mail addressed to the home's previous Administrator carbon copied to PNMO #137, the Assistant Administrator, and the DON. The e-mail had outlined concerns pertaining to resident #009's medication administration.

-On July 31, 2017, at 0120hrs, resident #009's family member had sent an e-mail addressed to PNMO #137, outlining concerns they had identified during their visit to the resident in the home on July 30, 2017. The e-mail indicated concerns in regards to resident #009 being congested and was choking later that day. The registered staff tried to suction the thick secretions from the resident's mouth, however, the suction machine was not working. The family member mentioned the prescribed Scopolamine drug had not been ordered from pharmacy, and also indicated concerns pertaining to turning and repositioning of resident #009 when in bed.

-On August 1, 2017, at 0106hrs, resident #009's family member had sent an e-mail

addressed to PNMO #137, outlining concerns they had identified during their visit to the resident in the home on July 31, 2017. The e-mail indicated concerns in regards to resident #009 not being turned and repositioned every two hours, catheter bag placed on the floor with a towel, and a registered staff's attitude towards the resident's family member.

During the course of the inspection, Inspector #653 reviewed the home's 2017 complaints binder and did not find any documented record of complaints pertaining to resident #009. NMO #117 also searched for PNMO #137's concerns and complaints black binder, however, they did not find it.

As per record reviews and staff interviews, the home was unable to provide evidence that a documented record was kept in the home that included (a) the nature of each verbal or written complaint; (b) the date the complaint was received; (c) the type of action taken to resolve the complaint, including the date of the action, time frames for actions to be taken and any follow-up action required; (d) the final resolution, if any; (e) every date on which any response was provided to the complainant and a description of the response; and (f) any response made in turn by the complainant, for the complaints they had received from resident #009's family member.

The severity of this issue was determined to be a level 1 as there was minimal harm or potential for actual harm to the resident.

The scope of the issue was a level 3 widespread as it related three out of three residents reviewed.

The home had a level 3 compliance history as there was one or more related non compliance within the last 3 years that included:

- written notification (WN) issued March 17, 2017 in report #2017_626501_0003 related to r. 101. (2) and r. 101. (1) 1 reporting and complaints.
- voluntary plan of correction (VPC) issued May 12, 2017 in report #2017_414110_0005 related to r. 101. (1) 1 reporting and complaints.
