Inspection Summary/Résumé de l'inspection

The purpose of this inspection was to conduct a Critical Incident System inspection.

This inspection was conducted on the following date(s): September 29 and 30, 2020

The following intakes were completed during this inspection:

One intake related to a Critical Incident Report regarding the unexpected death of a resident.

During the course of the inspection, the inspector(s) spoke with the Executive Director, Director of Care (DOC), Associate Director of Care (ADOC), Environmental Services Manager, RAI Coordinator, Registered Nurses (RN), Registered Practical Nurses (RPN), Personal Support Workers (PSW), Dietary Aides, Food Services Manager, Registered Dietitian and residents.

The inspector reviewed clinical health records of identified residents, internal investigation notes and staffing schedules, conducted a meal observation, observed staff to resident interactions and reviewed internal policies related to the incident.

**The following Inspection Protocols were used during this inspection:
Nutrition and Hydration**

During the course of this inspection, Non-Compliances were issued.

**WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6.
Plan of care**

Specifically failed to comply with the following:

**s. 6. (7) The licensee shall ensure that the care set out in the plan of care is
provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).**

Findings/Faits saillants :

1. The licensee has failed to ensure that a resident's care was provided as specified in the plan, related to dietary restrictions.

The resident's care plan indicated they were at high nutritional risk and were required to have a texture modified diet. The resident was served a meal item that was the wrong texture which caused the resident to choke. A Code Blue and emergency services were called, but the resident passed away. During an interview, a dietary aide indicated they were aware of the resident's dietary restrictions, but served the resident the identified food item that day, as they felt it was soft enough for them to eat safely. During separate interviews, the Registered Dietitian and the Food Services Manager (FSM) indicated there was no formal list of "hard textured" or "soft textured" food items, and no way to measure if a food should be considered hard or soft. The FSM confirmed that the resident's care was not provided to the resident as specified in the plan, which placed the resident at risk. By not ensuring the resident received interventions as specified in their plan, the resident passed away after choking on a food item which their care plan identified was unsafe for the resident.

Sources: Resident's written plan of care and dietary orders, internal investigation notes into the incident, internal policies related to nutritional care and hydration and interviews with dietary aide, PSW, RPN, DOC, Registered Dietitian and Food Services Manager. [s. 6. (7)]

Additional Required Actions:

Sources: Resident's written plan of care and dietary orders, internal investigation notes into the incident, internal policies related to nutritional care and hydration and interviews with dietary aide, PSW, RPN, DOC, Registered Dietitian and Food Services Manager.

An order was made by taking the following factors into account:

Severity: The resident passed away as a result of care not being provided as was specified in the plan, when the resident was served a food item identified to be unsafe in their written plan of care.

Scope: The incident was identified to be isolated, as one resident in the home was affected.

Compliance History: Three voluntary plans of correction (VPCs) were issued to the home related to the same section of the legislation within the past 36 months.
