s. 6 (9) The licensee shall ensure that the following are documented:

1. The provision of the care set out in the plan of care.

A resident's plan of care indicated that staff were to document specific measurements of the resident daily.

The Inspector reviewed the resident's health care record. There was no documentation of the measurement for multiple days during the specified month. Interviews with two RNs indicated that the measurements should have been documented in the resident's progress notes daily when it was taken.
