INSPECTION RESULTS

WRITTEN NOTIFICATION: Plan of Care

NC #001 Written Notification pursuant to FLTCA, 2021, s. 154 (1) 1.

Non-compliance with: FLTCA, 2021, s. 6 (7)

Plan of care

s. 6 (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan.

Introduction:

The licensee failed to ensure that the care set out in the plan of care for a resident was provided as specified in the plan.

Rationale and Summary:

A resident had responsive behaviours identified in their plan of care. An intervention for the responsive behaviours was documented in the resident's plan of care.

At the time of the incident, the intervention documented in the resident's plan of care was not used by staff. During this time the responsive behaviours occurred.

Assistant Director of Care stated that the expectation would have been that staff should have used the intervention as per the plan of care and acknowledged that they did not.

Not following the resident's plan of care put other residents at risk for their responsive behaviours.
