WN #1: The Licensee has failed to comply with LTCHC, 2007, S.O. 2007, c.8, s.6 (10)

(10)The licensee shall ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time when,
(b) the resident's care needs change or care set out in the plan is no longer necessary;

Findings:

1. According to progress notes from September 2010, the resident displayed new and ongoing signs of generalized weakness. The notes indicate the resident was becoming increasingly weak, and was now a 2 person transfer, unable to stand up alone due to weakness. The August 2010 written care plan was not revised to reflect the resident's changing needs, specifically the interventions for requiring 2 person assist due to weakness.

2. On October 22, 2010 in an interview, the Director of Care confirmed that there is confusion in the home related to the process of updating care plans when resident care needs change.
