**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 107. Reports re
critical incidents**

Specifically failed to comply with the following:

s. 107. (5) The licensee shall ensure that the resident's substitute decision-maker, if any, or any person designated by the substitute decision-maker and any other person designated by the resident are promptly notified of a serious injury or serious illness of the resident, in accordance with any instructions provided by the person or persons who are to be so notified. O. Reg. 79/10, s. 107 (5).

Findings/Faits saillants :

1. The licensee failed to ensure that the resident's substitute decision-maker was promptly notified of a serious injury or serious illness of the resident, in accordance with any instructions provided by the person or persons who are to be notified.

Critical Incident 2742-000017-18, log #025804-18, was submitted in 2018, related to a incident where resident #002 sustained an injury that resulted in the resident being taken to hospital and which resulted in a significant change in the resident's health status.

A review of the home's and the resident's electronic and paper records including the assessment completed by registered nursing staff identified the resident required a transfer to hospital due to pain and an injury to an identified area. Registered staff #100 documented that the Substitute Decision Maker (SDM) would be notified at a later time due to the time the incident occurred and that the resident was being transferred to hospital.

Resident #002's Cognitive Performance Scale and cognitive status was reviewed and it was noted that the resident's SDM was actively involved in the development and implementation of the residents plan of care and decision making.

In documented in the home's progress notes that SDM became aware of the situation at a later time and not by the home.

In an interview with the Administrator and DOC, it was confirmed that the home's expectation was that resident's SDMs were to be notified promptly when there was a serious injury to a resident that requires transfer to hospital. It was confirmed resident #002's SDM should have been notified prior to the resident being transferred. [s. 107. (5)]
