**Findings/Faits saillants :**

1. The licensee has failed to ensure that where the home put in place any plan, policy, protocol, procedure, strategy or system that it is complied with.

The home's policy titled "Medication Incidents LTC-F-220" revision date August 2012 requires registered staff to notify the DOC immediately for all incidents that may have contributed to or resulted in temporary harm to the resident and required intervention.

Progress notes revealed that there was a medication incident on a specified date for an identified resident.

In an interview, the RN who noted the medication incident revealed that an incident form was completed, the resident was monitored and corrective action was taken. The RN confirmed that the DOC, Medical Director, Substitute Decision Maker and Pharmacy were not immediately informed as per policy.

In an interview the DOC revealed that additional training was provided to the registered staff in March 2015 advising them that any medication incidents that could or did result in harm to a resident is to be immediately reported to the DOC or designate. The DOC confirmed that it is the expectation of the home that any medication incident that could or did result in harm to a resident is to be reported immediately and in the case of the cited medication incident it should have been and that this did not occur. [s. 8. (1) (b)]
