WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 68. Nutrition care and hydration programs
Specifically failed to comply with the following subsections:

s. 68. (2) Every licensee of a long-term care home shall ensure that the programs include,
(a) the development and implementation, in consultation with a registered dietitian who is a member of the staff of the home, of policies and procedures relating to nutrition care and dietary services and hydration;
(b) the identification of any risks related to nutrition care and dietary services and hydration;
(c) the implementation of interventions to mitigate and manage those risks;
(d) a system to monitor and evaluate the food and fluid intake of residents with identified risks related to nutrition and hydration; and
(e) a weight monitoring system to measure and record with respect to each resident,
(i) weight on admission and monthly thereafter, and
(ii) body mass index and height upon admission and annually thereafter. O. Reg. 79/10, s. 68 (2).

Findings/Faits saillants :

1. There is no documented evidence to support that food and fluid intake was being monitored and evaluated, for an identified resident.

A clinical record review revealed the Registered Dietitian had deemed the resident to be at high nutritional risk. Two registered nurses and the RAI coordinator acknowledged that the home should have been monitoring and evaluating this resident's food and fluid intake.

[O. Reg. 79/10, s.68(2)(d)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure the food and fluid intakes of residents, with identified risks related to nutrition and hydration, are monitored and evaluated, to be implemented voluntarily.
