During an interview, the Administrator and Director of Care stated that the home's expectation was that residents reporting pain should be assessed by a registered staff with the home's pain assessment tool . [s. 52. (2)]

**WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care**

**Specifically failed to comply with the following:**

**s. 6. (2) The licensee shall ensure that the care set out in the plan of care is based on an assessment of the resident and the needs and preferences of that resident. 2007, c. 8, s. 6 (2).**

**Findings/Faits saillants :**

**Inspection Report under the Long-Term Care Homes Act, 2007****Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

The licensee has failed ensure that the care set out in the plan of care was based on an assessment of a resident and the needs and preferences of that resident.

During an interview, a resident stated that when they ask staff to reheat their beverage it was always refused stating that they cannot do that for Infection Prevention and Control (IPAC). The resident mentioned that they felt frustrated and it was not reasonable to say, as they were witnessing staff heat up items for other residents and staff. During that day the Inspector asked a Dietary Aid if their meal could be reheated and they agreed to do so.

A review of the resident's progress notes on a specific date, stated in part that the resident was verbally aggressive with staff due to staff stating to resident that their beverage could not be reheated due infection control reasons. The resident's plan of care did not identify the resident's needs and preferences regarding having their beverage reheated.

During an interview, when asked if residents could reheat their beverage, an Registered Practical Nurse (RPN) stated they had to look at IPAC procedures, that they can have their beverage reheated and be careful and then sanitize the area after. The RPN added, that the resident should have their beverage reheated that it was the resident's rights.

During an interview, when asked if residents could reheat their beverage, the Personal Support Worker - Behavioural Support Ontario (PSW-BSO) stated it has happened related to IPAC but staff were told by the Administrator and the Director of Care to tell that resident they could not reheat their beverage for IPAC reasons.

During an interview, the DOC stated that they would not reheat the resident's beverage during the outbreak for IPAC reasons. A review of the Ministry of Long Term Care Critical Incident System, the home submitted a Critical Incident report reporting a Disease Outbreak and in which the outbreak declared over by Public Health on a specific date and the above resident's progress note was dated after the outbreak.

**WN #3: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records**

**Specifically failed to comply with the following:**

**s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,**  
**(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and O. Reg. 79/10, s. 8 (1).**

**Findings/Faits saillants :**

**Inspection Report under the Long-Term Care Homes Act, 2007****Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

1. The licensee has failed to ensure the Dining Program policy and procedures included in the required Dietary Service and Hydration Program were complied with for residents.

LTCHA s.11 (1)(a) requires an organized program of nutrition care and dietary services for the home to meet the daily nutrition needs of the residents.

O. Reg. 79/10, s. 73 (1) 3, requires that the program includes a dining and snack service that includes meal service in a congregate dining setting unless a resident's assessed needs indicate otherwise.

Staff did not comply with the home's policy and procedure "Dining Program", specifically: Residents will be served meals in dining room unless their needs are better met in another location as identified in resident care plan.

During an interview with the Complainant, they said the resident often received their lunch time preferred meal two hours later after the first meal was offered to other residents. During an interview with the resident, they said, in part, that they preferred having their meal in their room and that staff won't bring them a meal if they did not go to the dining room. The resident added they had to wait for the snack cart two hours later to eat their preferred meal. On four different days, the Inspector observed the resident not eating in the dining room of the home at lunch time. The resident was sitting in their room without a meal.

During an interview, the Registered Dietitian (RD) stated in part that they encourage residents to go to the dining room of the home but if they refuse, they could not force them. The RD added that if the resident did not want the meals that the home was proposing, for example at lunch time, the resident could request their preferred meal for lunch, not wait two hours later at snack time.

As per the home's policy, there was no assessment of the resident's need to be served meals in another location identified in the resident's clinical records and plan of care.

**Findings/Faits saillants :**

**Inspection Report under the Long-Term Care Homes Act, 2007****Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

The licensee has failed to ensure that every reported alleged abuse of a resident by anyone was immediately investigated.

A review of email correspondences sent by the Complainant to the Administrator on four different dates, included complaints of alleged staff verbal and emotional abuse and, care concerns related to a resident. During interviews with the resident they reported to the Inspector alleged verbal and emotional abuse from the Director of Care and reported it to the Administrator. During an interview with the Administrator and the Director of Care, the Administrator could not provide the Inspector the home's investigation and stated that they did not investigate the alleged verbal and emotional abuse of the resident.

The home's failure to immediately investigate the alleged verbal and emotional abuse caused actual risk of harm to the resident emotional well being.

**Order / Ordre :**

Aux termes de l'article 153 et/ou de l'article 154 de la *Loi de 2007 sur les foyers de soins de longue durée*, L.O. 2007, chap. 8

1. The licensee has failed to ensure that residents' pain was assessed using a clinically appropriate assessment instrument specifically designed for this purpose.

A review of two residents' progress notes on specific dates identified that both residents complained of a new pain on their body. No pain assessments were completed for both residents by the registered staff. During an interview, the Administrator and Director of Care stated that the home's expectation was that residents reporting pain should be assessed by a registered staff with the home's pain assessment tool .

The home's failure to not assess both residents' pain posed harm to the residents' health status as they were exposed to unpleasant sensory and emotional experience.

Sources: Residents' clinical records, the home's policy "Pain Management Program (last revised August 16, 2017) and staff interviews. [s. 52. (2)]

Severity: There was actual harm to residents in the home as their pain could not be properly relieved.

Scope: Two out of three residents were not provided pain assessments when reporting pain demonstrating non-compliance as a pattern in the home.

Compliance History: In the last 36 months, the licensee had no previous non-compliance related to this section. (615)
