The licensee failed to report an incident that caused an injury for which the resident was taken to the hospital and resulted in a significant change.

A review of records indicated that resident #003 had an incident that lead to an injury. It was determined by the physician and PT #118 that the resident had a significant change in condition and as a result was sent to the hospital. A review of Critical Incident Report, and a call to the after-hours line indicated that this incident was reported to the director late. There was no risk of harm as result of the late reporting.
