WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 130. Security of drug supply

Every licensee of a long-term care home shall ensure that steps are taken to ensure the security of the drug supply, including the following:

- 1. All areas where drugs are stored shall be kept locked at all times, when not in use.**
- 2. Access to these areas shall be restricted to,**
 - i. persons who may dispense, prescribe or administer drugs in the home, and**
 - ii. the Administrator.**
- 3. A monthly audit shall be undertaken of the daily count sheets of controlled substances to determine if there are any discrepancies and that immediate action is taken if any discrepancies are discovered. O. Reg. 79/10, s. 130.**

Findings/Faits saillants :

1. The licensee has failed to ensure that steps were taken to ensure the security of the drug supply, which included a monthly audit of the daily count sheets of controlled substances to determine if there were any discrepancies and that immediate action was taken if any discrepancies were discovered.

A Critical Incident System (CIS) report was received by the Director on a day in October 2018, concerning unaccounted controlled substances found during a narcotic shift count. The report indicated that there had been a discrepancy in the count of two controlled substances. The previous count indicated five tablets for both controlled substances and four tablets were in their blister packs, where two tablets were unaccounted for.

A record review of the home's policy, "Shift change monitored drug count' - #6-6", revised November 2018, indicated a monthly audit of the narcotic and controlled medication was required by the Director of Care (DOC), Manager or delegate in all drug storage areas to ensure all narcotic and controlled drugs were present in the right quantities; the DOC or delegate and a witness would audit the count sheets monthly, comparing the count to the quantity of medication remaining; track monthly audits using the 'Narcotic/Controlled Drugs Audit Annual Tracking' form.

Inspector #577 conducted a record review of the home's Narcotic and Controlled

Medication Audit completed by Clinical Consultant Pharmacist #101. The Inspector found that the audit indicated the review of the monthly audit of shift count sheets was 'not met' by the home and had not been done since February 2016.

During an interview with the Clinical Consultant Pharmacist #101, they reported that the monthly controlled substance audits were to be done by the registered nursing staff in the home. They confirmed that their review of the monthly audit of shift count sheets was not met by the home and had not been done since February 2016. They further indicated that it was the home's responsibility to perform the monthly audits, and their role was to confirm that it was being completed to identify any discrepancies.

In an interview with RN #105, they reported that they were unaware of monthly audits of controlled substances and stated that night staff conducted most of the audits. They further referred Inspector #577 to an audit binder, which did not contain any monthly controlled substance audits.

During an interview with the Director of Care (DOC), they were unable to provide any completed monthly audits of the daily count sheets of controlled substances.

During an interview, the Acting Administrator, together with Inspector#577, reviewed the Narcotic and Controlled Medication sheet. They confirmed that the home did not have any records of controlled substances audits. They further confirmed that staff should have been conducting monthly audits of the narcotics and controlled substances on the "Narcotic/Controlled Drugs Audit Annual Tracking" form, according to the home's policy.
