1. The licensee has failed to ensure that the care set out in the plan of care was provided to the resident as specified in the plan.

Progress notes for a specified date, identified that resident #001 reported to staff that she/he was handled roughly when transferred from the wheelchair to the toilet.

Record review of the physiotherapy assessment on a specified date, revealed resident #001 required a mechanical lift for transfers. Review of the written plan of care for the previously noted date, revealed that the resident had decreased strength/balance, was a high risk for falls, and required a mechanical lift for transfers.

Interview with resident #001 indicated that she/he was transferred "once in a while" with the mechanical lift, but "mostly" with a two-person assist.

Interviews with staff #105 and registered staff #107 confirmed that on the previously noted date, the resident was transferred with one-person assistance. Progress notes written on two separate dates indicated that the resident was transferred by two people.

Interviews with registered staff #107 and the Director of Care confirmed the resident was transferred by a one-person or two-person assist and that the care identified in the plan of care was not provided as specified in the plan. [s. 6. (7)]

***Additional Required Actions:***

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)
