Every licensee of a long-term care home shall ensure that there is a written plan of care for each resident that sets out, clear directions to staff and others who provide direct care to the resident.

Findings:

The Nutrition section indicates a need for nectar-thick fluids however the nursing Eating section indicates a need for honey consistency fluids. The diet had been changed from honey to nectar thick fluids in March, 2010. The resident was receiving nectar thick fluids at breakfast on September 1, 2010.
