Inspection Summary/Sommaire d'inspection

The purpose of this inspection was to conduct a critical incident inspection related to a resident elopement.

During the course of the inspection, the inspector spoke with: the Administrator, several registered and non registered nursing staff members.

During the course of the inspection, the inspector: reviewed door security on many resident accessible exit and stairway doors within the 1st floor central core and lobby areas, MacMillan Resident Home Area and the basement level.

The following Inspection Protocol was used during this inspection: Safe and Secure Home.

Findings of Non-Compliance were found during this inspection. The following action was taken:

1 WN

4 CO: CO # 001, 002, 003, 004

NON- COMPLIANCE / (Non-respectés)

Definitions/Définitions

WN – Written Notifications/Avis écrit
VPC – Voluntary Plan of Correction/Plan de redressement volontaire
DR – Director Referral/Régisseur envoyé
CO – Compliance Order/Ordres de conformité
WAO – Work and Activity Order/Ordres: travaux et activités

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Non-compliance with requirements under the *Long-Term Care Homes Act, 2007* (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)

Le suivant constituer un avis d'écrit de l'exigence prévue le paragraphe 1 de section 152 de les foyers de soins de longue durée.

Non-respect avec les exigences sur le *Loi de 2007 les foyers de soins de longue durée* à trouvé. (Une exigence dans le loi comprend les exigences contenues dans les points énumérés dans la définition de "exigence prévue par la présente loi" au paragraphe 2(1) de la loi.

WN #1: The Licensee has failed to comply with O. Reg. 79/10, s. 9. Every licensee of a long-term care home shall ensure that the following rules are complied with:
1. All doors leading to stairways and the outside of the home must be,
  i. kept closed and locked,
  ii. equipped with a door access control system that is kept on at all times, and
  iii. equipped with an audible door alarm that allows calls to be cancelled only at the point of activation and
    A. is connected to the resident-staff communication and response system, or
    B. is connected to an audio visual enunciator that is connected to the nurses' station nearest to the door and has a manual reset switch at each door.

Findings:
1. On February 17, 2011, 13 doors leading to stairways and to the outside of the home were closed but not locked in the areas inspected: the 1st floor MacMillan resident home area, the 1st floor central core and lobby area, and the basement:

- 5 doors leading to stairways were not locked and are accessible to residents of the Long Term Care Home: 1st floor door, adjacent to the elevators, leading from the lobby into the stairway to the 2nd floor; the 1st floor door, located between MacMillan wing resident rooms labelled "W107" and "W108", leading from the corridor into a stairway; the 1st floor door, located between MacMillan wing resident rooms labelled "W119 and W120" leading from the corridor into a stairway; the basement door, located between rooms labelled "sprinkler room" and "supply room", leading from the corridor to a stairway; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an exterior stairway.
- 9 doors leading to the outside of the home were not locked and are accessible to residents of the Long Term Care Home: 1st floor main entrance doors, facing towards Angeline Street, that leads from the lobby to the outside (doors are on interior and exterior motion activated sensors that open the doors); 1st floor rear entrance door, facing rear parking lot, that leads from the lobby to the outside; 1st floor door, in the vicinity of the chapel, that leads from 1st floor corridor to the outside near the generator; 1st floor door, in the vicinity of the chapel, leading from the stairway to the outside of the home by the generator; 1st floor exit door, adjacent to office "N136", leading from the corridor to the outside rear raised walkway facing the parking lot; 1st floor exit door leading from the stairway, located between

resident rooms "W107" and "W108", leading to the outside ; 1st floor door leading from the stairway, between resident rooms "W119" and "W120", to the outside; basement door adjacent to room "N055 kitchen receiving room" that leads to the outside raised loading dock at the rear of the home; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an outside stairway.

2. The 13 doors identified above were not equipped with a door access control system that is kept on at all times, and

3. The 13 doors identified above are not equipped with an audible door alarm that allows calls to be cancelled only at the point of activation and that is connected to the resident-staff communication and response system or to an audio visual enunciator that is connected to the nurses' station nearest to the door with a manual reset switch at each door. Noted that some of the doors leading to stairways and to he outside of the home were connected to an audio visual enunciator located at the MacMillan nurses' station. The reset for this system is within the nurses' station.

4. On February 11, 2011, a resident of the Long Term Care Home was identified on a Critical Incident Report # M589-000006-11, as a missing resident for less than 3 hours. The resident was found sitting on a snow bank, one block north of the home. It was reported that the resident has a diagnosis of dementia. The resident did not have a walker when found. It was also reported that "it was cold and the sidewalks were icy".

Note: all doors leading to stairways and to the outside were not checked.

Inspector ID #:	102

Additional Required Actions:

CO # - 001 was served on the licensee on February 18, 2011.
CO # - 002, 003 and 004 will be served on the licensee. Refer to the "Order(s) of the Inspector" form.

Care Home: 1st floor door, adjacent to the elevators, leading from the lobby into the stairway to the 2nd floor; the 1st floor door, located between MacMillan wing resident rooms labelled "W107" and "W108", leading from the corridor into a stairway; the 1st floor door, located between MacMillan wing resident rooms labelled "W119 and W120" leading from the corridor into a stairway; the basement door, located between rooms labelled "sprinkler room" and "supply room", leading from the corridor to a stairway; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an exterior stairway.

2. 9 doors leading to the outside of the home were not locked and are accessible to residents of the Long Term Care Home: 1st floor main entrance doors, facing towards Angeline Street, that leads from the lobby to the outside (doors are on interior and exterior motion activated sensors that open the doors); 1st floor rear entrance door, facing rear parking lot, that leads from the lobby to the outside; 1st floor door, in the vicinity of the chapel, that leads from 1st floor corridor to the outside near the generator; 1st floor door, in the vicinity of the chapel, leading from the stairway to the outside of the home by the generator; 1st floor exit door, adjacent to office "N136", leading from the corridor to the outside rear raised walkway facing the parking lot; 1st floor exit door leading from the stairway, located between resident rooms "W107" and "W108", leading to the outside ; 1st floor door leading from the stairway, between resident rooms "W119" and "W120", to the outside; basement door adjacent to room "N055 kitchen receiving room" that leads to the outside raised loading dock at the rear of the home; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an outside stairway.

3. On February 11, 2011, a female resident of the Long Term Care Home was identified on a Critical Incident Report # M589-000006-11, as a missing resident for less than 3 hours. The resident was found sitting on a snow bank, one block north of the home. It was reported that the resident has a diagnosis of dementia. The resident did not have her walker with her. It was also reported that "it was cold and the sidewalks were icy" at the time of elopement.

This order must be complied with by:	September 01, 2011/**AMMENDED DATE: December 12, 2011**

Order #:	003	**Order Type:**	Compliance Order, Section 153 (1)(a)

Pursuant to: O. Reg. 79/10, s. 9. Every licensee of a long-term care home shall ensure that the following rules are complied with:
1. All doors leading to stairways and the outside of the home must be,
   ii. equipped with a door access control system that is kept on at all times

Order: All doors leading to stairways and the outside of the home are to be equipped with a door access control system that is kept on at all times.

Grounds: On February 17, 2011, 13 doors leading to stairways and to the outside of the home that were checked and located within the 1st floor MacMillan resident home area, the 1st floor central core and lobby area, and the basement, were not equipped with a door access control system that is kept on at all times:

1. 5 doors leading to stairways: 1st floor door, adjacent to the elevators, leading from the lobby into the stairway to the 2nd floor; the 1st floor door, located between MacMillan wing resident rooms labelled "W107" and "W108", leading from the corridor into a stairway; the 1st floor door, located between MacMillan wing resident rooms labelled "W119 and W120" leading from the corridor into a stairway; the basement door, located between rooms labelled "sprinkler room" and "supply room", leading from the corridor to a stairway; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an exterior stairway.

2. 9 doors leading to the outside of the home: 1st floor main entrance doors, facing towards Angeline Street, that leads from the lobby to the outside (doors are on interior and exterior motion activated sensors that open the doors); 1st floor rear entrance door, facing rear parking lot, that leads from the lobby to the outside; 1st floor door, in the vicinity of the chapel, that leads from 1st floor corridor to the outside near the generator; 1st floor door, in the vicinity of the chapel, leading from the stairway to the outside of the home by the generator; 1st floor exit door, adjacent to office "N136", leading from the corridor to the outside rear raised walkway facing the parking lot; 1st floor exit door leading from the stairway, located between resident rooms "W107" and "W108", leading to the outside ; 1st floor door leading from the stairway, between resident rooms "W119" and "W120", to the outside; basement door adjacent to room "N055 kitchen receiving room" that leads to the outside raised loading dock at the rear of the home; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an outside stairway.

3. On February 11, 2011, a female resident of the Long Term Care Home was identified on a Critical Incident Report # M589-000006-11, as a missing resident for less than 3 hours. The resident was found sitting on a snow bank, one block north of the home. It was reported that the resident has a diagnosis of dementia. The resident did not have her walker with her. It was also reported that "it was cold and the sidewalks were icy" at the time of elopement.

This order must be complied with by:	September 01, 2011/ **AMMENDED DATE: December 12, 2011**

Order #:	004	**Order Type:**	Compliance Order, Section 153 (1)(a)

Pursuant to: O. Reg. 79/10, s. 9. Every licensee of a long-term care home shall ensure that the following rules are complied with:
1. All doors leading to stairways and the outside of the home must be,
  iii. equipped with an audible door alarm that allows calls to be cancelled only at the point of activation and
    A. is connected to the resident-staff communication and response system, or
    B. is connected to an audio visual enunciator that is connected to the nurses' station nearest to the door and has a manual reset switch at each door.

Ministry of Health and Long-Term Care
Health System Accountability and Performance Division
Performance Improvement and Compliance Branch

Ministère de la Santé et des Soins de longue durée
Division de la responsabilisation et de la performance du système de santé
Direction de l'amélioration de la performance et de la conformité

Order: All doors leading to stairways and the outside of the home are to be equipped with an audible door alarm that allows calls to be cancelled only at the point of activation and the alarm is to be

a. connected to the resident-staff communication and response system, or
b. connected to an audio visual enunciator that is connected to the nurses' station nearest to the door and has a manual reset switch at each door.

Grounds: On February 17, 2011, 13 doors leading to stairways and to the outside of the home that were checked and located within the 1st floor MacMillan resident home area, the 1st floor central core and lobby area, and the basement, were not equipped with an audible door alarm that allows calls to be cancelled only at the point of activation and that is connected to the resident-staff communication and response system or to an audio visual enunciator that is connected to the nurses' station nearest to the door with a manual reset switch at each door:

1. 5 doors leading to stairways: 1st floor door, adjacent to the elevators, leading from the lobby into the stairway to the 2nd floor; the 1st floor door, located between MacMillan wing resident rooms labelled "W107" and "W108", leading from the corridor into a stairway; the 1st floor door, located between MacMillan wing resident rooms labelled "W119 and W120" leading from the corridor into a stairway; the basement door, located between rooms labelled "sprinkler room" and "supply room", leading from the corridor to a stairway; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an exterior stairway.

2. 9 doors leading to the outside of the home: 1st floor main entrance doors, facing towards Angeline Street, that leads from the lobby to the outside (doors are on interior and exterior motion activated sensors that open the doors); 1st floor rear entrance door, facing rear parking lot, that leads from the lobby to the outside; 1st floor door, in the vicinity of the chapel, that leads from 1st floor corridor to the outside near the generator; 1st floor door, in the vicinity of the chapel, leading from the stairway to the outside of the home by the generator; 1st floor exit door, adjacent to office "N136", leading from the corridor to the outside rear raised walkway facing the parking lot; 1st floor exit door leading from the stairway, located between resident rooms "W107" and "W108", leading to the outside ; 1st floor door leading from the stairway, between resident rooms "W119" and "W120", to the outside; basement door adjacent to room "N055 kitchen receiving room" that leads to the outside raised loading dock at the rear of the home; the basement door, adjacent to door labelled "N002 Sump", leading from the corridor to an outside stairway.

3. On February 11, 2011, a female resident of the Long Term Care Home was identified on a Critical Incident Report # M589-000006-11, as a missing resident for less than 3 hours. The resident was found sitting on a snow bank, one block north of the home. It was reported that the resident has a diagnosis of dementia. The resident did not have her walker with her. It was also reported that "it was cold and the sidewalks were icy" at the time of elopement.

Noted that some of the doors were connected to an audio visual enunciator located within the MacMillan nursing station. Staff present in the nursing station did not know how to operate the system.
