1. The licensee failed to ensure that any plan, policy, protocol, procedure, strategy or system instituted or otherwise put in place is in compliance with and is implemented in accordance with all applicable requirements under the Act, and is complied with.

The home policy states that upon discovering a pressure ulcer, a referral is made to the RD through the internal documentation program, Point Click Care (PCC). Resident #6 sustained multiple alterations to skin integrity over a 3 month period including a pressure ulcer. A review of the homes internal documentation records indicates that a referral was not made to the RD for any of the skin breakdowns resident # 6 sustained.

In addition, the RD stated that failing a referral through PCC, that she/he may also become aware of pressure ulcers via a skin and wound assessment tracking tool provided to her/him at the end of each month by nursing staff from each unit. A review of this record for an identified date indicates that the resident's pressure ulcer had not been documented on this form. The home did not comply with their policy for wound referrals to the dietitian. [s. 8. (1) (a), s. 8. (1) (b)]

***Additional Required Actions:***

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that any plan, policy, protocol, procedure, strategy or system instituted or otherwise put in place is in compliance with and is implemented in accordance with all applicable requirements under the Act, and is complied with, to be implemented voluntarily.***
