Findings/Faits saillants :

**Inspection Report under
the Long-Term Care
Homes Act, 2007****Rapport d'inspection en vertu de
la Loi de 2007 sur les foyers de
soins de longue durée**

1. The licensee has failed to ensure that at least one registered nurse who was both an employee of the licensee and a member of the regular nursing staff of the home was on duty and present in the home at all times, except as provided for in the regulations.

In accordance with O. Reg. 79/10, s. 45 (1) 2, for homes with a licensed bed capacity of more than 64 beds and fewer than 129 beds, in the case of a planned or extended leave of absence of an employee of the licensee who is a registered nurse and a member of the regular nursing staff, a registered nurse who works at the home pursuant to a contract or agreement with the licensee and who is a member of the regular nursing staff may be used.

Wyndham Manor is home with a licensed bed capacity of 128 beds.

A) A complaint was submitted to the Director in relation to the care for resident #001 on an identified shift and the home's response to an incident that occurred.

A review of the schedule for the identified shift indicated that Registered Nurse (RN) #105 was the only RN in the building and they were from an employment agency.

In an interview with RN #105, they indicated that they were the only RN in the building on the identified shift.

In an interview with staff #109, they acknowledged that the regularly scheduled RN notified the home that they were unavailable to work their scheduled shift in advance and the RN from the employment agency was the only RN in the home for the identified shift.

The home did not ensure that on an identified shift, there was a RN who was both an employee of the licensee and a member of the regular nursing staff of the home on duty and present in the home.

B) The schedules were reviewed for two months and it was identified that there was an agency RN on an identified shift on 11 occasions. In an interview with staff #109, they confirmed that on the 11 occasions, the agency RN was the only RN in the building.

The home did not ensure that there was a RN who was both an employee of the licensee and a member of the regular nursing staff of the home on duty and present in the home on eleven occasions in a two-month period. [s. 8. (3)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the “Order(s) of the Inspector”.

**WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6.
Plan of care**

Specifically failed to comply with the following:

**s. 6. (7) The licensee shall ensure that the care set out in the plan of care is
provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).**

Findings/Faits saillants :

Inspection Report under
the Long-Term Care
Homes Act, 2007

Rapport d'inspection en vertu de
la Loi de 2007 sur les foyers de
soins de longue durée

1. The licensee has failed to ensure that the care set out in the plan of care was provided to the resident as specified in the plan.

A complaint was submitted to the Director in relation to the care of resident #001. Specifically, the complaint identified concerns that care was not provided to the resident as per their wishes in their plan of care.

A review of the clinical record for resident #001 identified an unsigned admission document. A progress note from the date of admission, written by Registered Nurse (RN) #106, noted the resident's wishes in relation to the identified document.

A review of progress notes documented by Registered Practical Nurse (RPN) #103 and RN #105 indicated that on an identified date, there was an incident involving resident #001 and they assessed the resident, but an identified intervention was not implemented.

In an interview with RN #106, they indicated that upon admission, the paperwork was reviewed with the resident and their POA and a blank document was left in the resident's chart to allow time for them to consider their options. RN #106 acknowledged that the unsigned document meant that an identified intervention would be provided.

In an interview with the Executive Director, they acknowledged that the identified document was not signed, which meant that staff should have initiated a specific intervention on the date of the incident.

The home did not ensure that an intervention was provided to the resident as per their plan of care. [s. 6. (7)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that the care set out in the plan of care is provided to the resident as specified in the plan, to be implemented voluntarily.

WN #3: The Licensee has failed to comply with O.Reg 79/10, s. 30. General requirements

Specifically failed to comply with the following:

s. 30. (2) The licensee shall ensure that any actions taken with respect to a resident under a program, including assessments, reassessments, interventions and the resident's responses to interventions are documented. O. Reg. 79/10, s. 30 (2).

Findings/Faits saillants :

1. The licensee has failed to ensure that any actions taken with respect to a resident under a program, including assessments, reassessments, interventions and the resident's responses to interventions were documented.

In accordance with O. Reg. 79/10 s. 114 (1), the licensee was required to develop an interdisciplinary medication management system that provided safe medication management and optimized effective drug therapy outcomes for residents.

A complaint was submitted to the Director which included a concern about resident #001's medication.

A review of the resident's chart identified a new medication order. There was no notation on the order, nor in the progress notes that the POA consented to the medication.

In an interview with the ADOC, they indicated that they spoke with the registered staff who received the order and they stated that they received consent for the medication, but it was not documented.

The home did not ensure that the consent for a new medication for resident #001 was documented. [s. 30. (2)]
