WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 21. Air temperature Specifically failed to comply with the following:

s. 21. (3) The temperature required to be measured under subsection (2) shall be documented at least once every morning, once every afternoon between 12 p.m. and 5 p.m. and once every evening or night. O. Reg. 79/10, s. 21 (3).

Findings/Faits saillants :

Ministère des Soins de longue durée

Inspection Report under the Long-Term Care Homes Act, 2007 Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée

1. The licensee has failed to ensure that air temperatures of the home were measured and documented in writing at least once every morning, once every afternoon between 12 p.m. and 5 p.m. and once every evening or night.

Observations during the inspection on a specific resident home area showed air temperatures of 26 and 27 degrees Celsius.

In an interview the Maintenance Supervisor said they reviewed the home's temperature through the automated system once a day. They said there was no documented record of the air temperatures. They were not aware of the requirement to measure and document the air temperatures of the home on different locations in the home and at specific intervals.

In an interview, the Administrator/DOC said they were not aware the legislative requirement for indoor temperature was to be monitored at minimum three times daily at specified times and in specified areas of the home.

At the time of the inspection they updated the home's policy to reflect amendments to Ontario Regulation 79/10 and implemented air temperature check documented record.

Observations late in the inspection in the same areas showed temperature of 23 degrees Celsius.

### Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that air temperatures of the home are measured and documented in writing at least once every morning, once every afternoon between 12 p.m. and 5 p.m. and once every evening or night, to be implemented voluntarily.

WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care

Ministère des Soins de longue durée

Inspection Report under the Long-Term Care Homes Act, 2007 Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée

Specifically failed to comply with the following:

s. 6. (9) The licensee shall ensure that the following are documented:

- 1. The provision of the care set out in the plan of care. 2007, c. 8, s. 6 (9).
- 2. The outcomes of the care set out in the plan of care. 2007, c. 8, s. 6 (9).
- 3. The effectiveness of the plan of care. 2007, c. 8, s. 6 (9).

## Findings/Faits saillants :

1. The licensee has failed to ensure that the provision of care as set out in the plan of care was documented.

The home submitted a Critical Incident System (CIS) report on a certain date related to a specific resident's fall. CIS indicated that at the time of the fall a specific fall intervention was noted to not be implemented.

A clinical record review of the resident's plan of care showed a specific falls prevention intervention.

A review of the resident's task care record showed no documented evidence that the intervention was provided on the date of the fall.

In an interview Administrator/DOC said there was no documented evidence the specific falls prevention intervention was applied on the date of the fall as this intervention was not on the task care record. They said this intervention should be documented as a provision of care set out in the plan of care. The task care record was updated to show documentation of the provisions of care set out in the plan of care.
