1. The licensee has failed to ensure that the Director was informed no later than one business day after the occurrence of the incident of an injury to a resident that resulted in a significant change in the resident's health condition and for which the resident was taken to a hospital.

Family member of an identified resident submitted a Ministry of Health and Long Term Care Infoline Complaint Information Form regarding concerns related to a fall.

Record review of the identified resident affirmed a fall occurred.

Director Of Care (DOC) #100 stated that the home was aware of the outcome following the fall of the identified resident. DOC #100 reported that a critical incident had been submitted regarding the fall and DOC #100 provided a copy of the critical incident report to the inspector. A review of the critical incident provided by DOC #100 acknowledged the report was submitted two business days following the critical incident.

DOC #100 stated that the outcome following the fall would constitute a significant change and the home should have reported the critical incident to the Director within one business day.

The severity of this non-compliance is minimal risk and the scope is isolated. The home does not have a history of non-compliance in this subsection of the legislation. [s. 107. (3)]
