WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records

Specifically failed to comply with the following:

s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,

(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and O. Reg. 79/10, s. 8 (1).

(b) is complied with. O. Reg. 79/10, s. 8 (1).

Findings/Faits saillants :

1. Ontario Regulation 79/10 section 114.(2). states that the licensee shall ensure that written policies and protocols are developed for the medication management system to ensure the accurate acquisition, dispensing, receipt, storage, administration, and destruction and disposal of all drugs used in the home.

A review of the homes medication administration record-treatment administration record (policy 2.24) procedure 7 states the following:

When a drug is administered the nurse must initial the box on the MAR/TAR which corresponds to the appropriate date and time of administration.

On a specified date and time resident #1 was observed to be absent of any vital signs. A review of Resident #1's medication administration record indicated that Registered Staff documented on thirteen occasions that the resident had received medications and treatments post death.

The Licensee has failed to ensure that Ontario Regulation 79/10 section 8. (1)(b) is complied with by not ensuring that the medication management system policies and procedures were complied with. [s. 8. (1)]
